Cyclonic Storm “MICHAUNG” (pronounced as MIGJAUM) over Southwest Bay of Bengal (Cyclone Warning for Andhra Pradesh and adjoining North Tamil Nadu-Puducherry Coasts: Orange Message)

The Cyclonic Storm “MICHAUNG” (pronounced as MIGJAUM) over Southwest Bay of Bengal moved north-northwestwards with a speed of 13 kmph during past 06 hours and lay centered at 2330 hours IST of 3rd December, 2023 over the same region near Latitude 12.8°N and Longitude 81.6°E, about 210 km east-northeast of Puducherry, 150 km east-southeast of Chennai, 250 km southeast of Nellore, 360 km south-southeast of Bapatla and 380 km south-southeast of Machilipatnam.

It is likely to continue to move north-northwestwards, intensify further and reach Westcentral Bay Of Bengal off south Andhra Pradesh and adjoining north Tamilnadu coast by 4th December forenoon. Thereafter, it would move nearly northwards almost parallel and close to south Andhra Pradesh coast and cross South Andhra Pradesh coast between Nellore and Machilipatnam during forenoon of 5th December as a Severe Cyclonic Storm with a maximum sustained wind speed of 90-100 kmph gusting to 110 kmph.

Warnings:

(i) Rainfall Warning (graphics enclosed):

- **North Coastal Tamil Nadu & Puducherry**: Light to moderate rainfall at most places with heavy to very heavy rainfall at a few places with isolated extremely heavy falls is very likely on 4th and isolated heavy rainfall on 5th December and decrease thereafter.

- **Coastal Andhra Pradesh**: Light to moderate rainfall at most places and heavy to very heavy rainfall at a few places with extremely heavy falls at isolated places over coastal Andhra Pradesh & Yanam on 4th & 5th December. Isolated heavy rainfall is likely over north coastal Andhra Pradesh on 6th December.

- **Rayalaseema**: Light to moderate rainfall at many places with isolated heavy to extremely heavy falls is very likely on 4th and isolated heavy rainfall on 5th December and decrease thereafter.

- **Telangana**: Light to moderate rainfall at few places with isolated heavy rainfall is likely on 4th & 5th with isolated very heavy rainfall over the same region on 5th December.

- **Odisha**: Light to moderate rainfall at most places with isolated heavy rainfall is likely over south Coastal and adjoining south Interior Odisha during 4th & 6th with isolated very heavy rainfall over the same region on 5th December.

(ii) Wind warning:

- **Southwest Bay of Bengal along & off north Tamil Nadu-Puducherry Coasts**: Gale wind speed reaching **75-85 kmph gusting to 95 kmph** is prevailing over Southwest Bay of Bengal. It is likely to gradually increase becoming **80-90 kmph gusting to 100 kmph** from 4th December morning for subsequent 12 hours. It will gradually decrease thereafter.

- **Westcentral Bay of Bengal and along & off south Andhra Pradesh Coast**: Squally wind speed reaching **70-80 kmph gusting to 90 kmph** is prevailing over westcentral Bay of Bengal. It is likely to gradually increase becoming Gale Wind speed reaching **80-90** kmph.
kmph gusting to 100 kmph from 4th morning and 90-100 kmph gusting to 110 kmph from 4th evening till 5th December noon. It would gradually decrease thereafter.

- Along & off north Andhra Pradesh Coast:
  Squally wind speed reaching 45-55 kmph gusting to 65 kmph likely from 4th December evening, likely to gradually increase becoming 55-65 kmph gusting to 75 kmph from 5th December morning for subsequent 24 hours. It would gradually decrease thereafter.

- Along & off Odisha Coast:
  Squally wind speed reaching 35-45 kmph gusting to 55 kmph likely from 4th December evening, likely to gradually increase becoming 40-50 kmph gusting to 60 kmph from 5th December evening for subsequent 12 hours. It would gradually decrease thereafter.

(iii) Sea Condition:
- Southwest Bay of Bengal and along & off north Tamil Nadu-Puducherry Coasts:
  High sea condition is prevailing and likely to continue till 4th December morning and likely to become high to very rough from 4th December evening and very rough to rough thereafter till 5th December morning. It is likely to improve thereafter gradually.

- Westcentral Bay of Bengal and along & off south Andhra Pradesh Coast:
  Very Rough to High sea condition is prevailing over the region. It is likely to become high to very high from 4th noon to 5th December noon. It is likely to improve thereafter gradually becoming high to very rough from 5th evening and very rough to rough from 6th morning for subsequent 12 hours.

- Along & off North Andhra Pradesh Coast:
  Rough to Very Rough to sea condition is likely on 4th December, very rough to high on 5th and very rough to rough on 6th December.

- Along & off Odisha Coast:
  Rough to Very Rough to sea condition is likely from 4th December evening till 6th December morning.

(iv) Fishermen Warning (graphics attached):
Fishermen are advised not to venture into:
- Southwest Bay of Bengal and along & off North Tamil Nadu-Puducherry Coasts till 5th December.
- Westcentral Bay of Bengal and along & off Andhra Pradesh Coast till 6th December.
- Along & off Odisha coast from 4th December evening till 6th December

(v) Storm Surge (Graphics enclosed):
Storm surge of about 1-1.5 meter above astronomical tide likely to inundate south Coastal Andhra Pradesh districts at the time of landfall.

(vi) Damage Expected over coastal districts of South Andhra Pradesh (Nellore, Tirupati Prakasam, Bapatla, Guntur, Krishna and West Godavari) and adjoining coastal districts of North Tamil Nadu-Puducherry:
- Major damage to thatched houses/ huts. Roof tops may blow off. Unattached metal sheets may fly.
- Possibilities of damage to vulnerable structure.
- Breaking of tree branches, uprooting of large avenue trees. Major damage to banana and papaya trees. Large dead limbs blown from trees.
- Minor damage to power and communication lines due to breaking of branches and uprooting of trees.
- Major damage to Kutcha and minor damage to Pucca roads due to heavy rain.
- Damage to paddy crops, horticultural crops and orchards.
- Sea water inundation in low lying areas after erosion of Kutch embankments
- Inundation of low lying areas in coastal districts due to heavy rainfall and flash flood
- Localized Flooding of roads and closure of underpasses mainly in urban areas of the above region.
- Occasional reduction in visibility due to heavy rainfall.
- Disruption of traffic due to water logging and squally winds
- Localized Landslides/Mudslides
- It may lead to riverine flooding in some river catchments (for riverine flooding please visit Web page of CWC)

(vi) Action Suggested for coastal districts of South Andhra Pradesh and adjoining coastal districts of North Tamil Nadu-Puducherry:
- Total suspension of fishing operations.
- Surface transport and shipping operations need to be regulated
- Onshore & Offshore operation need to be regulated as per guidelines
- Coastal hutment dwellers to be in safer places.
- People in affected areas to remain indoors.
- Avoid going to areas that face the water logging problems often.
- Avoid staying in vulnerable structure.

The system is under continuous surveillance and the next message will be issued at 0530 hours IST of 04th December, 2023.
