Sub: Severe Cyclonic Storm "Akvan" [Pronunciation: Akvan] over westcentral Bay of Bengal [Cyclone Warning for North Andhra Pradesh & Yanam and South Odisha coasts—Red Message]

The Severe Cyclonic Storm "Akvan" [Pronunciation: Akvan] over the westcentral Bay of Bengal moved northwards with the speed of 13 kmph during past 06 hours and lay centered at 1730 hours IST of today, the 19th November, 2026 over the same region, near Latitude 16.1°N and Longitude 85.2°E, about 270 km south-southeast of Kalingapatnam (Andhra Pradesh), 350 km south of Gopalpur (Odisha), 380 km east of Narsapur (Andhra Pradesh), 420 km south of Puri (Odisha) and 640 km east-northeast of Chennai (Tamil Nadu).

It is likely to move north-northwestward and cross North Andhra Pradesh and South Odisha coasts close to Gopalpur, by noon of 20th November, 2026 with the maximum sustained wind speed of 90-100 kmph gusting to 110 kmph.

Forecast location and intensity are given in following table:

Date/Time (IST)	Position (Lat. ^{0}N/ long. ^{0}E)	Maximum sustained surface wind speed (Kmph)	Category of cyclonic disturbance
19.11.26/1730	16.1/85.2	90-100 gusting to 110	Severe Cyclonic Storm
19.11.26/2330	17.1/85.1	90-100 gusting to 110	Severe Cyclonic Storm
20.11.26/0530	18.2/85.0	90-100 gusting to 110	Severe Cyclonic Storm
20.11.26/1130	19.3/85.0	80-90 gusting to 100	Cyclonic Storm
20.11.26/1730	20.4/85.0	50-60 gusting to 70	Deep Depression
21.11.26/0530	22.2/85.2	20-30 gusting to 40	Well Marked Low Pressure Area

Warnings:

(i) Rainfall Warning:

North Coastal Andhra Pradesh: Light to moderate rainfall at most places with **heavy to very heavy rainfall** at a few places and isolated **extremely heavy rainfall (≥21 cm)** on 19th November. It is likely to decrease become light to moderate rainfall at many places with **heavy to very rainfall** at isolated places over north coastal Andhra Pradesh on 20th November.

Odisha: Light to moderate rainfall at most places with **heavy to very heavy rainfall** at a few places and isolated **extremely heavy rainfall (≥21 cm)** over Odisha on 19th & 20th November**.** It is likely to decrease to light to moderate rainfall at many places with **heavy rainfall** at isolated places over North Odisha on 21st November.

Chhattisgarh: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely over east Chhattisgarh on 20th on 21st November.

Gangetic West Bengal: Light to moderate rainfall at many places with **heavy to very heavy rainfall** at isolated places is very likely on 19th & 20th November and **heavy rainfall** at isolated places on 21st November.

Jharkhand: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely over South Jharkhand on 19th & 21st with **Heavy to very heavy rainfall** at isolated places on 20th November.

Bihar: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely over southeast Bihar on 20th November.

(ii) Flash Flood Guidence: Moderate flash flood risk likely over few watersheds & neighborhoods of Odisha and Gangetic West Bengal during next 24 hours.

Odisha: Puri, Jagatsinghpur, Kendrapara, Baleshwar, Bhadrak, Cuttack, Dhenkanal, Mayurbhanj, Keonjhargarh and Jajpur districts.

Gangetic West Bengal: East Midnapore, Howrah, North 24 Parganas, South 24 Parganas and Nadia districts.

(iii) Wind warning:

Westcentral Bay of Bengal: Gale wind speed reaching 90-100 kmph gusting to 110 kmph is prevailing and will continue till landfall on 20th noon. It will decrease gradually thereafter.

Southwest Bay of Bengal: Squally wind speed reaching 50-60 kmph gusting to 70 kmph is prevailing over northern parts of southwest Bay of Bengal and likely to continue till mid night of 19th November. It will decrease gradually thereafter.

Northwest Bay of Bengal: Gale wind speed reaching 60-70 gusting to 80 kmph is prevailing. It is likely to increase becoming 80-90 gusting to 100 kmph from midnight of 19th Nov till noon of 20th Nov and decease thereafter.

Eastcentral Bay of Bengal: Squally wind speed reaching 40-50 kmph gusting to 60 kmph is likely to prevail during next 12 hours and decease gradually thereafter.

Along & off North Andhra Pradesh & Yanam coasts: Gale wind speed reaching 60-70 gusting to 80 kmph is prevailing becoming 90-100 gusting to 110 kmph from 19th Nov mid night till landfall on 20th Nov noon and decrease gradually thereafter.

Along & off South Odisha coasts: Squally wind speed reaching 50-60 kmph gusting to 70 kmph is prevailing and likely to increase becoming 80-90 gusting to 100 kmph from 19th midnight till 20th November afternoon and decease thereafter.

Along & off North Odisha & West Bengal coasts: Squally wind speed reaching 50-60 gusting 70 kmph is likely to prevail till 20th Nov noon and decrease thereafter.

South Andhra Pradesh coast: Squally wind speed reaching 40-50 gusting to 60 kmph till 20th Nov morning and decease thereafter.

(iv) Sea condition:

Westcentral Bay of Bengal: Very High Sea condition is prevailing; it is likely to continue till landfall on 20th November. It is likely to improve thereafter becoming very rough to rough by 21st November morning.

Northwest Bay of Bengal: Very rough to high sea condition is likely to prevail till 20th Nov noon and improve thereafter.

Northern parts of Southwest Bay of Bengal: Very rough to high sea condition is prevailing and it is likely to deteriorate becoming high to very high till midnight of 19th November and improve thereafter.

Eastcentral Bay of Bengal: Rough to very rough sea condition is likely to during next 12 hours and improve thereafter.

Along & off North Andhra Pradesh & Yanam coasts: High Sea condition is prevailing becoming high to very high from 19th Nov midnight till landfall on 20th Nov Noon and improve thereafter.

Along & off South Odisha coasts: High Sea condition is prevailing and likely to remain high till 20th November afternoon and improve thereafter.

Along & Off adjoining areas of North Odisha & West Bengal coasts: Very rough to high Sea condition is likely to prevail till landfall on 20th Nov noon and improve gradually thereafter.

Along & off North South Andhra Pradesh coasts: Rough to very rough sea condition is very likely till 20th November.

(v) Storm Surge Warning:
Storm surge of 0.5 to 1.0 m height above astronomical tide is very likely to inundate low lying areas of Andhra Pradesh (**Kakinada, Vizianagaram, Srikakulam and Visakhapatnam** districts) and south coastal Odisha (**Ganjam and Puri** districts) during the time of landfall.

(vi) Fisherman warning: Fishermen are advised not to venture into
- Northern parts of Southwest Bay of Bengal till 20th November.
- Westcentral Bay of Bengal till 21st November morning.
- Eastcentral Bay of Bengal till 19th November.
- Northwest Bay of Bengal till 21st November morning.

(vii) Impact Expected & Action Suggested

(a) Damage Expected over north Coastal Andhra Pradesh & Yanam and South Odisha and Action suggested

- **Structure:**
  - Major Damage to thatched houses/huts/ kutcha houses.
  - Roof tops may blow off
  - Unattached metal sheets may fly
  - Potential threat to vulnerable structures, tin house, asbestos house.
  - Potential threat to structures from detached hoardings, uprooting of trees, breaking of branches
- **Communication and Power:**
  - Damage to power and communication poles.
  - Breaking of tree branches, uprooting of trees.
- **Agriculture:**
  - Major damage to standing and coastal crops, plantations, orchards, falling of green coconuts, tearing of palm fronds. Major damage to banana, Papaya and drumstick trees.
  - Uprooting of trees and breaking of tree branches
  - Damage to horticulture and standing crops.
  - Damage to embankments/ salt pans.
- **Marine interest:**
  - Very high Sea with wave height of 9-12 metre till landfall. Visibility severely affected
  - Movement in boats/ships unsafe
- **Roads/Rail/Air Transport:**
  - Major damage to Kutcha and Pucca roads.
  - Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.

- Localized Flooding of roads, water logging in low lying areas.
- Disruption of traffic in major cities due to water logging in roads leading to increased travel time.
- Disruption of railways, overhead powerlines and signalling systems, Airports & Heliports.

• **Drinking water/sanitation and human/animal health**.
• **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, possible landslides in hilly areas

Action Suggested

- Total suspension of fishing operations over:
  - Southeast Bay of Bengal from till 18th November.
  - Southwest Bay of Bengal till 20th November.
  - Westcentral Bay of Bengal till 21st November.
  - Eastcentral Bay of Bengal till 18th November.
  - Northwest Bay of Bengal during 19th – 21st November.
- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail, road and air traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Total suspension of offshore/onshore operations
- Dam/reservoir authorities may access the dam/reservoirs.
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 20th November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 20th November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 20th November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 20th November.

(b) Damage Expected over north Odisha, Gangetic West Bengal, South Jharkhand and East Chhattisgarh and Action suggested

• **Structure:**
- Damage to thatched houses/ kutcha houses.
- Potential threat to vulnerable structures, tin house, asbestos house.

• **Agriculture:**
- Damage to standing crops, plantations, orchards, falling of green coconuts, tearing of palm fronds. Major damage to banana, Papaya and drumstick trees.
- Breaking of tree branches
- Damage to horticulture and standing crops and coastal crops.

• **Marine interest:** Very rough seas. Sea waves about 4-6 m high. Visibility severely affected
• **Roads/Rail:**
- Some breaches in Kutcha Road due to flooding.
- Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
- Localized Flooding of roads, water logging in low lying areas.
- Disruption of traffic in major cities due to water logging in roads leading to increased travel time.

• **Drinking water/sanitation and human/animal health**.
• **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, landslides in hilly areas

Action Suggested

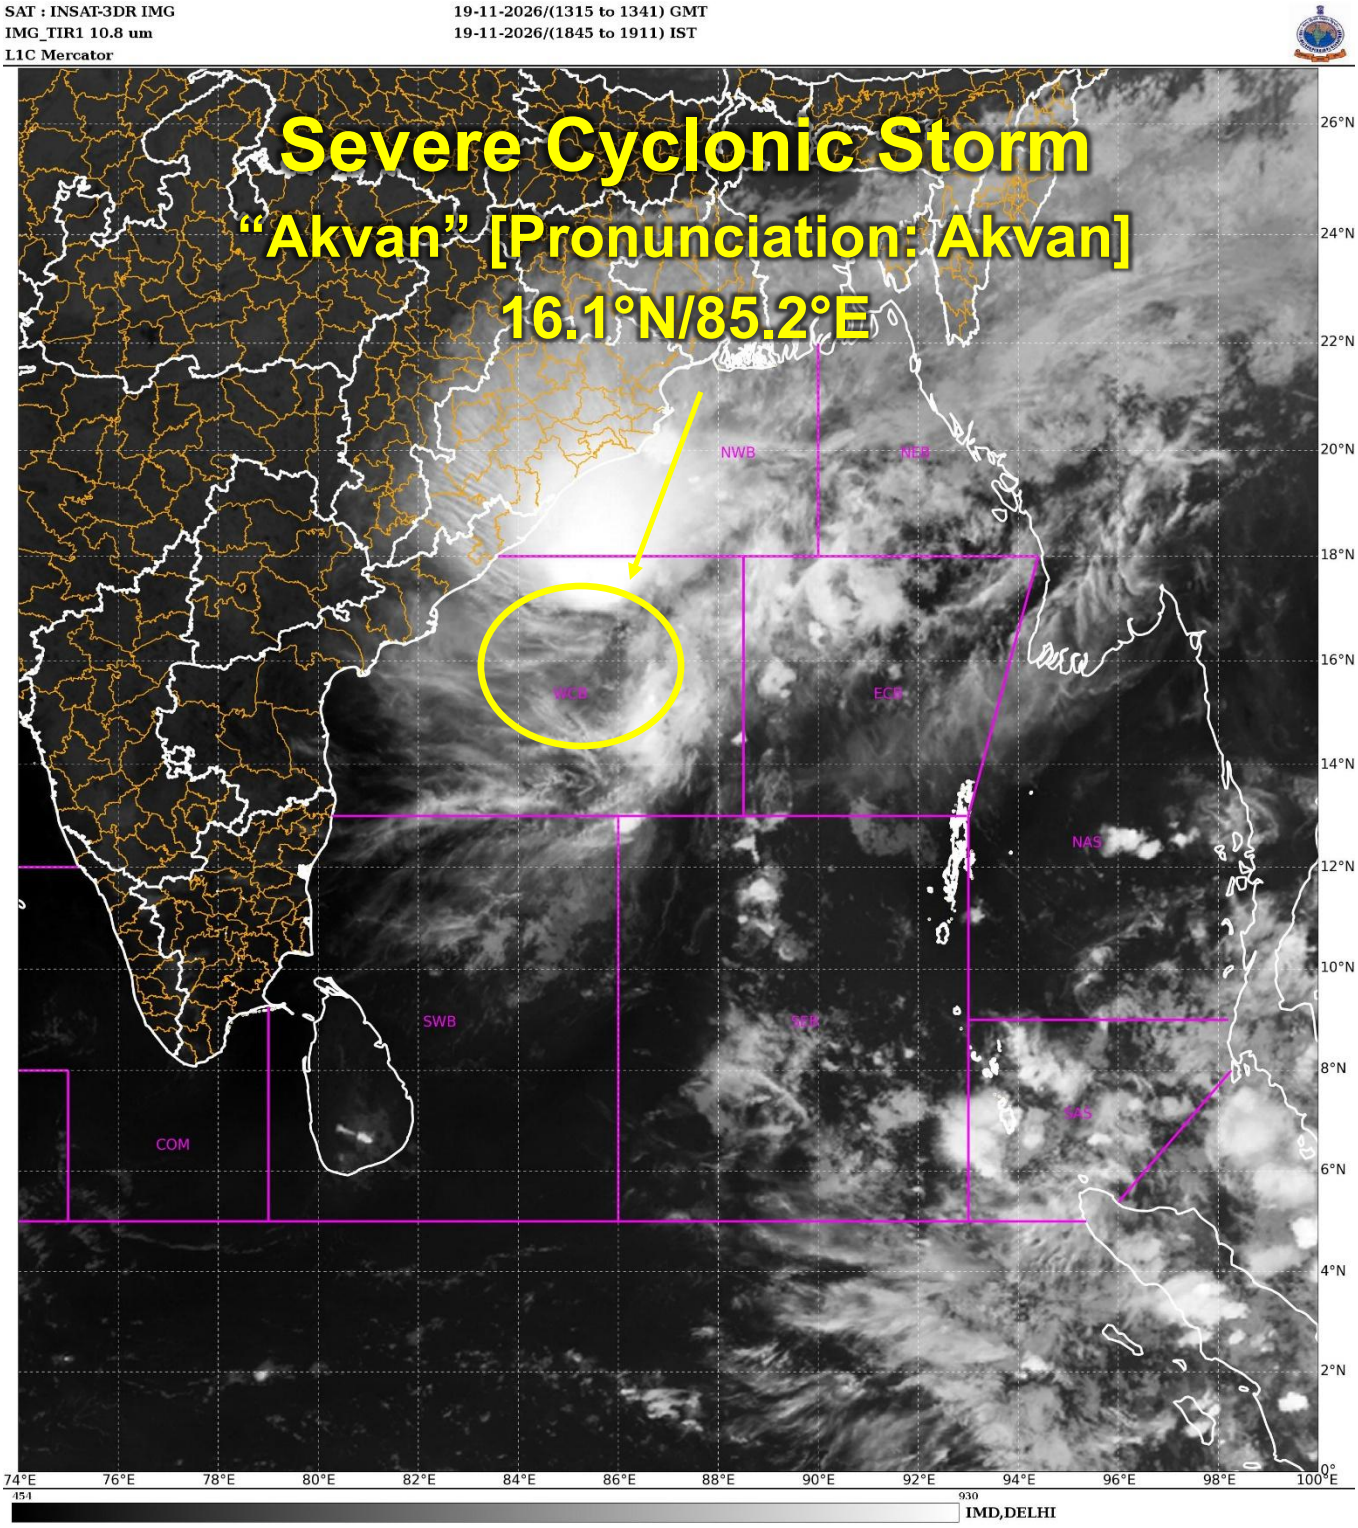

- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic

- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Offshore/onshore operations need to be judiciously regulated
- Dam/reservoir authorities may access the dam/reservoirs
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 20th November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 20th November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 20th November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 20th November.

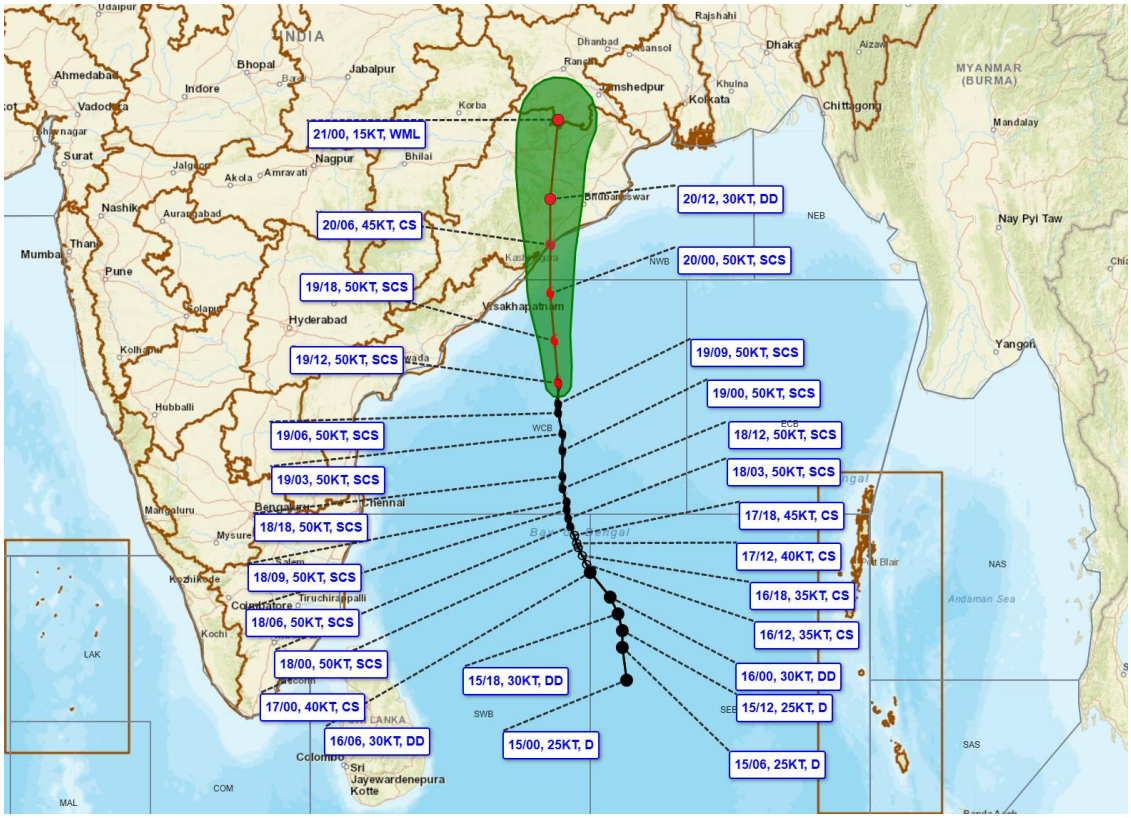

Next Message will be issued at 2330 hours IST of today, the 19th November, 2026.

Fishermen are advised not to venture into the marked areas.

Storm Surge Map

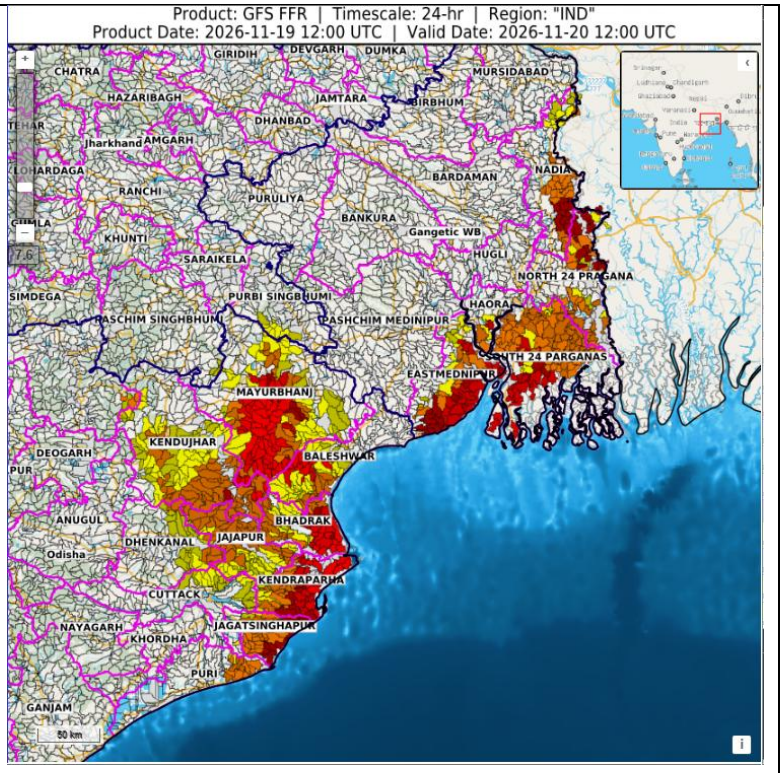

Flash Flood Risk (FFR) till 1730 IST of 20-11-2026:

Moderate to high flash flood risk likely over few watersheds & neighbourhoods of following Met Sub-divisions during next 24 hours.

Odisha: Puri, Jagatsinghpur, Kendrapara, Baleshwar, Bhadrak, Cuttack, Dhemkanal, Mayurbhanj, Keonjhargarh and Jajpur districts

Gangetic West Bengal: East Midnapore, Howrah, North 24 Parganas, South 24 Parganas and Nadia districts

Surface runoff/ Inundation may occur at some fully saturated soils & low-lying areas over Area of Concern (AoC) as shown in map due to expected rainfall occurrence in next 24 hours.
