Sub: Cyclonic Storm "Akvan" [Pronunciation: Akvan] crossed north Andhra Pradesh & south Odisha coasts close to Gopalpur **[Post Landfall outlook for North Andhra Pradesh and South Odisha coasts—Red Message]**

The Cyclonic Storm "Akvan" [Pronunciation: Akvan] over the westcentral Bay of Bengal near north Andhra Pradesh & south Odisha coasts moved north-northwestwards with the speed of 26 kmph during past 06 hours and crossed the north Andhra Pradesh & south Odisha coasts close to Gopalpur (near latitude 19.1 & longitude 84.8) with wind speed of 70-80kmph gusting to 90kmph during 0730-0830 IST, lay centred over south coastal Odisha & adjoining north coastal Andhra Pradesh close to Gopalpur near Latitude 19.2°N and Longitude 84.8°E, at 0830 hours IST of today, the 20th November, 2026, about 120 km northeast of Kalingapatnam (Andhra Pradesh), 130 km west-southwest of Puri (Odisha), and 230 km northeast of Visakhapatnam (Andhra Pradesh).

It is likely to move nearly north-northeastwards across Odisha and weaken into a Deep Depression during next 03 hours and into a Depression during subsequent 06 hours.

The system is under continuous surveillance of the Doppler Weather Radar at Gopalpur.

Forecast location and intensity are given in following table:

Date/Time (IST)	Position (Lat. ^{0}N/ long. ^{0}E)	Maximum sustained surface wind speed (Kmph)	Category of cyclonic disturbance
20.11.26/0830	19.2/84.8	65-75 gusting to 85	Cyclonic Storm

20.11.26/1130	19.9/84.8	55-65 gusting to75	Deep Depression
20.11.26/1730	21.5/84.8	25-35 gusting to 45	Depression
20.11.26/2330	23.0/85.0	15-25 gusting to 35	Well Marked Low Pressure Area

Warnings:

(i) Rainfall Warning:

Odisha: Light to moderate rainfall at many places with **heavy to very heavy rainfall** at isolated places is very likely on 20th November.

Chhattisgarh: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely over east Chhattisgarh on 20th on 21st November.

Gangetic West Bengal: Light to moderate rainfall at many places with **heavy to very heavy rainfall** at isolated places is very likely on 20th November and **heavy rainfall** at isolated places on 21st November.

Sub Himalayan West Bengal: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely on 20th on 21st November.

Jharkhand: Light to moderate rainfall at many places with **heavy to very heavy rainfall** at isolated places is very likely on 20th November and **heavy rainfall** at isolated places on 21st November.

Bihar: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely over southeast Bihar on 21st November.

Manipur, Tripura, Mizoram, Assam & Meghalaya: Light to moderate rainfall at many places with **heavy rainfall** at isolated places is very likely over Manipur, Tripura, Mizoram and south Assam on 20th November and over Manipur, Tripura, Mizoram, Assam & Meghalaya on 21st November.

(ii) Flash Flood Guidence: Moderate flash flood risk likely over few watersheds & neighborhoods of Odisha and Gangetic West Bengal during next 24 hours.

Odisha: Gajapati, Ganjam, Jagatsinghpur, Kendrapara, Puri, Balasore, Keonjhargarh, Mayurbhanj, Sambalpur, Sundargarh and Deogarh districts
Gangetic West Bengal: Bankura, Purulia, West Midnapore, East Midnapore, Howrah, North 24 Parganas, South 24 Parganas, Hooghly, Nadia and Purba Bardhaman districts
Jharkhand: East Singhbhum, Seraikela-Kharsawan, West Singhbhum, Khunti, Ranchi, Simdega and Gumla districts

(iii) Wind warning:

Westcentral Bay of Bengal: Squally wind speed reaching 50-60 kmph gusting to 70 kmph is prevailing and It will decrease gradually thereafter.

Northwest Bay of Bengal: Gale wind speed reaching 60-70 kmph gusting to 80 kmph is prevailing and It will decrease becoming Squally wind speed reaching 40-50 kmph gusting to 60 kmph by evening of today.

Along & off North Andhra Pradesh & Yanam coasts: Squally wind speed reaching 50-60 kmph gusting to 70 kmph is prevailing and It will decrease gradually thereafter.

Along & off South Odisha coasts: Gale wind speed reaching 60-70 kmph gusting to 80 kmph is prevailing and It will decrease becoming Squally wind speed reaching 40-50 kmph gusting to 60 kmph by evening of today.

Along & off North Odisha & West Bengal coasts: Squally wind speed reaching 45-55 gusting 65 kmph is prevailing and will continue till evening of today, the 20th Nov 2026 and decrease thereafter.

(iv) Sea condition:

Westcentral Bay of Bengal: Very rough to rough sea condition likely to prevail during next 03hours and likely improve gradually thereafter

Northwest Bay of Bengal: High Sea condition likely to continue for next 3 hours, becoming very rough to rough by evening of today and It is likely to improve thereafter

Along & off North Andhra coast: Very rough to rough sea condition likely to prevail during next 03hours and likely improve gradually thereafter

. **Along & off South Odisha coasts:** High Sea condition likely to continue for next 3 hours, becoming very rough to rough by evening of today and It is likely to improve thereafter.

Along & Off adjoining areas of North Odisha & West Bengal coasts: Rough Sea condition is likely to prevail till evening of today and improve gradually thereafter.

(vi) Fisherman warning: Fishermen are advised not to venture into

- Westcentral Bay of Bengal till 20st November night.
- Northwest Bay of Bengal till 21st November morning.

(vii) Impact Expected & Action Suggested

(a) Damage Expected over Odisha, West Bengal, Jharkhand, Bihar, Chhattisgarth, Manipur, Tripura, Mizoram, Assam & Meghalaya.

(b) Action suggested

- **Roads/Rail/Air Transport:**
  - Major damage to Kutcha and Pucca roads.
  - Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
  - Localized Flooding of roads, water logging in low lying areas.
  - Disruption of traffic in major cities due to water logging in roads leading to increased travel time.
  - Disruption of railways, overhead powerlines and signalling systems, Airports & Heliports.
- **Drinking water/sanitation and human/animal health**.
- **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, possible landslides in hilly areas

Action Suggested

- Total suspension of fishing operations over:
  - Westcentral Bay of Bengal till 20st November.
  - Northwest Bay of Bengal till 21st November.
- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Judicious regulation of rail, road and air traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Total suspension of offshore/onshore operations
- Dam/reservoir authorities may access the dam/reservoirs.
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 20th November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 20th November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 20th November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 20th November.

(c) Damage Expected over north Odisha, Gangetic West Bengal, South Jharkhand and East Chhattisgarh and Action suggested

- **Structure:**
  - Damage to thatched houses/ kutcha houses.
  - Potential threat to vulnerable structures, tin house, asbestos house.
- **Roads/Rail:**
  - Some breaches in Kutcha Road due to flooding.
  - Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
  - Localized Flooding of roads, water logging in low lying areas.
  - Disruption of traffic in major cities due to water logging in roads leading to increased travel time.

• Drinking water/sanitation and human/animal health.

• **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, landslides in hilly areas

Action Suggested

- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Offshore/onshore operations need to be judiciously regulated
- Dam/reservoir authorities may access the dam/reservoirs
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till evening of today, the 20th November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 20th November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 20th November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till evening of today, the 20th November.

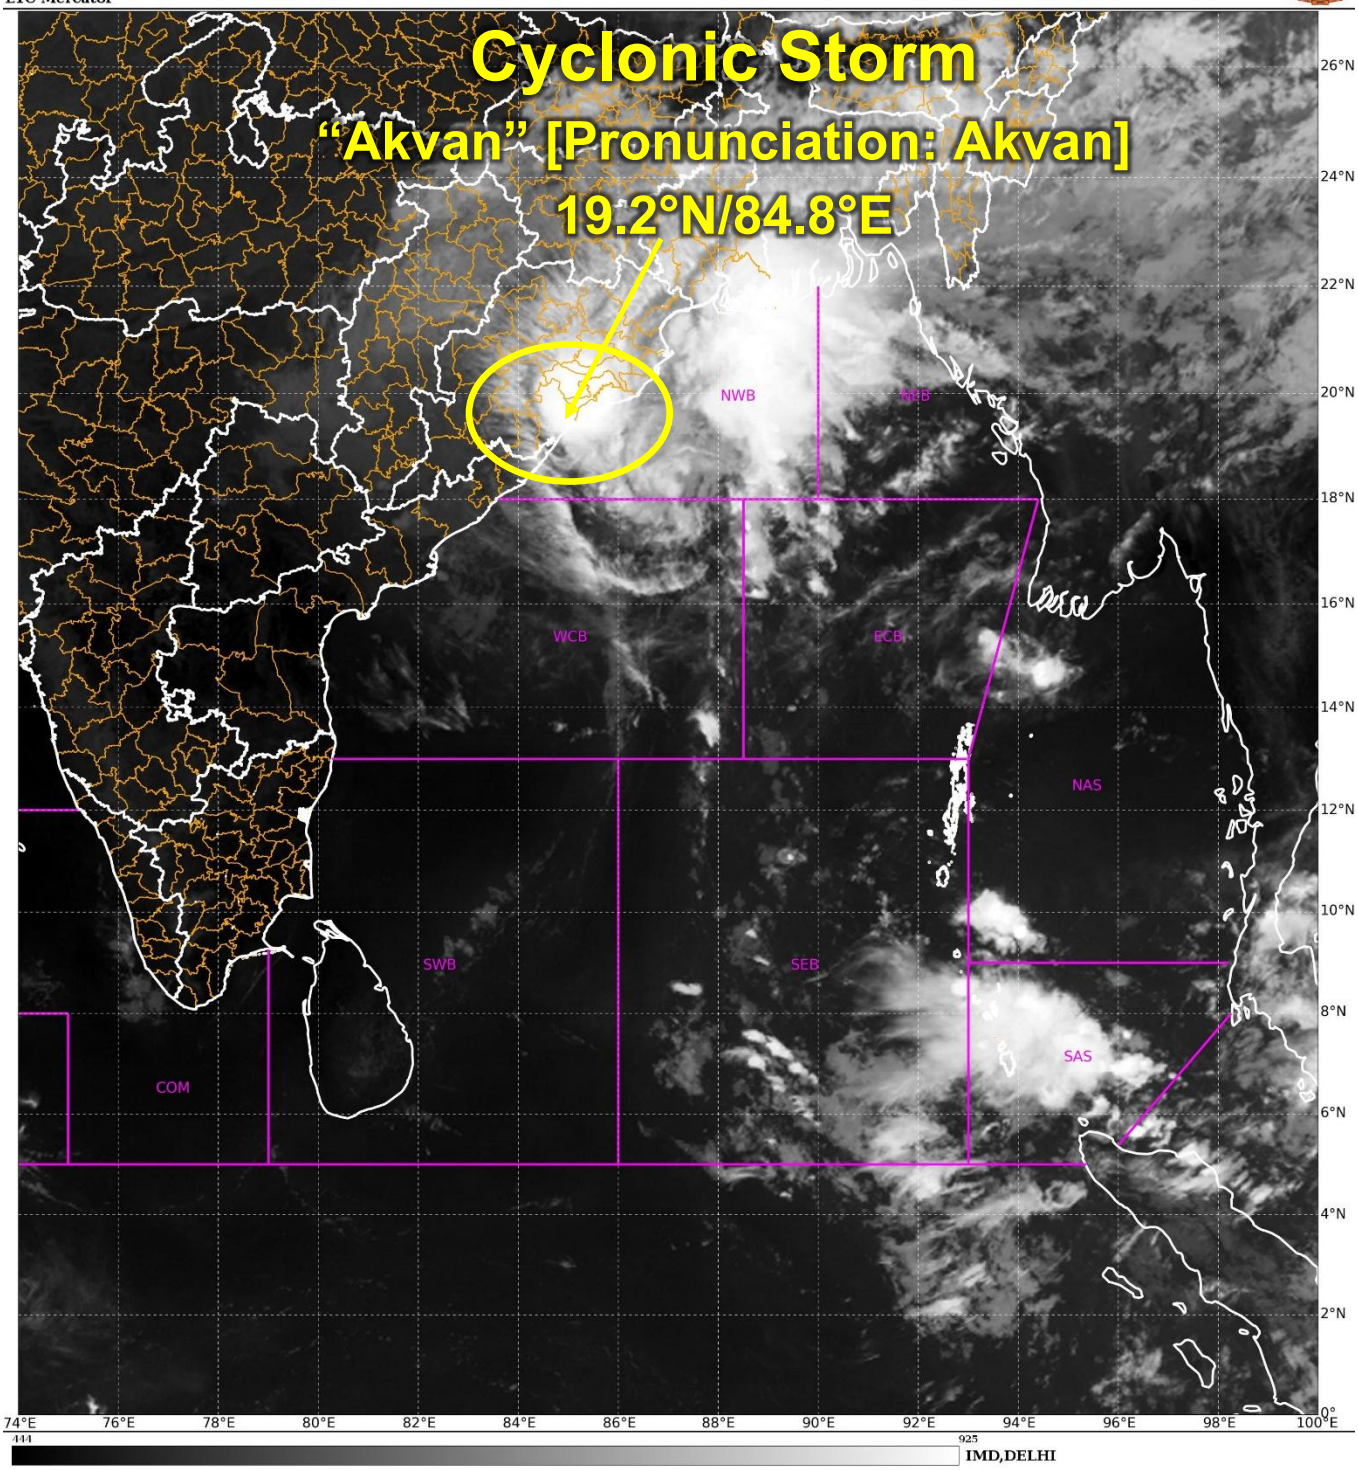

Next Message will be issued at 1230 hours IST of today, the 20th November, 2026.

- SCS with Gale wind speed 90-110 kmph gusting to 120 kmph
- VSCS with Gale wind speed 120-165 kmph gusting to 185 kmph
- ESCS with Gale wind speed 165-220 kmph gusting to 245 kmph

Fishermen are advised not to venture into the marked areas.

Flash Flood Risk (FFR) till 0530 IST of 21-11-2026:

Moderate to High flash flood risk likely over few watersheds & neighbourhoods of following Met Sub-divisions during next 24 hours.

Odisha: Gajapati, Ganjam, Jagatsinghpur, Kendrapara, Puri, Balasore, Keonjhargarh, Mayurbhanj, Sambalpur, Sundargarh and Deogarh districts
Gangetic West Bengal: Bankura, Purulia, West Midnapore, East Midnapore, Howrah, North 24 Parganas, South 24 Parganas, Hooghly, Nadia and Purba Bardhaman districts
Jharkhand: East Singhbhum, Seraikela-Kharsawan, West Singhbhum, Khunti, Ranchi, Simdega and Gumla districts

Surface runoff/ Inundation may occur at some fully saturated soils & low-lying areas over Area of Concern (AoC) as shown in map due to expected rainfall occurrence in next 24 hours.
