

## **Suggestion/ Feedback regarding improvement in home page of IMD's Website**

This website is the main interface of IMD for dissemination of various public weather services, climate services and warnings. On an average around 2.5 Lac hits are being received in a day from different users and specialised government agencies those who are extensively using this website for sectoral applications.

Based on the suggestions and feedback received from end users we periodically change the look and feel of the website to make it more user friendly.

Recently we have added many other products and services and it is time to go for another makeover of our website. We invite you to provide your suggestions and creative ideas to make our websites more suitable for emerging requirement.

You can provide your suggestions on the link given below
