

Extended Range Weather Forecast

Date: - 05.03.2026

Weather Forecast and Warning for two weeks w.e.f. 06th March, 2026

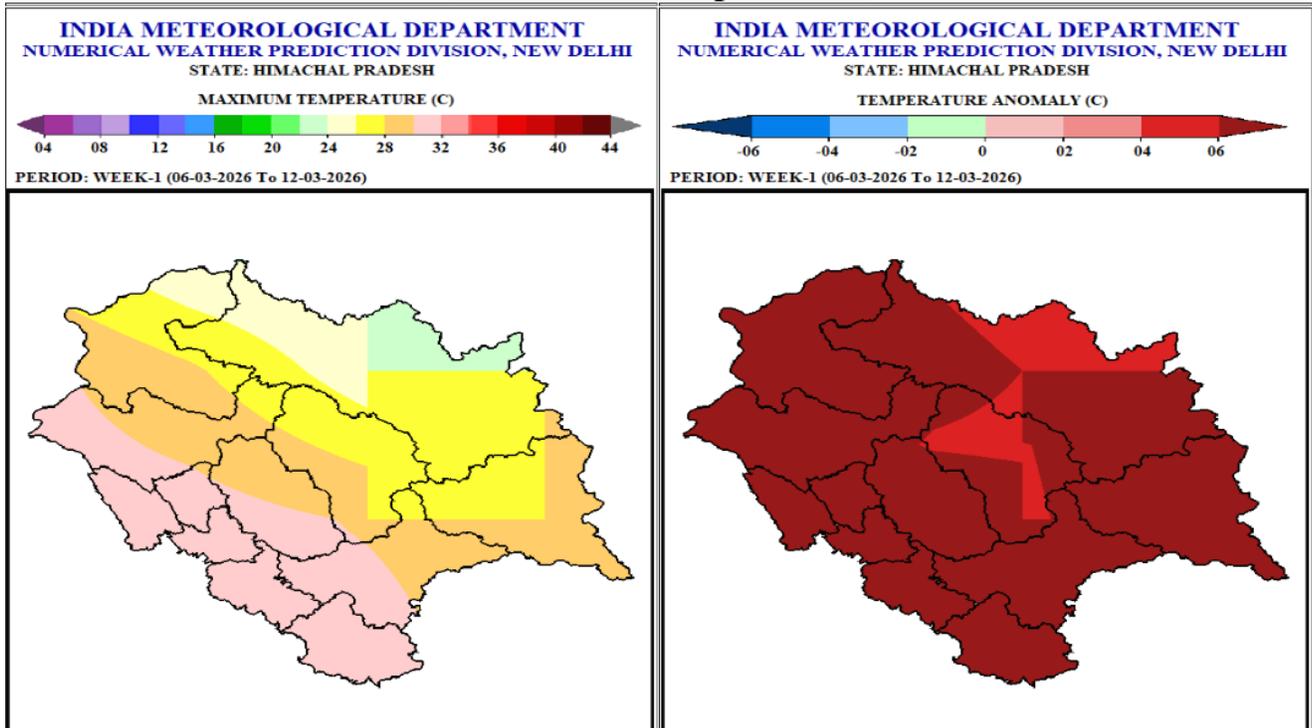

Week 1 (06th March 2026 – 12th March 2026)

Rainfall

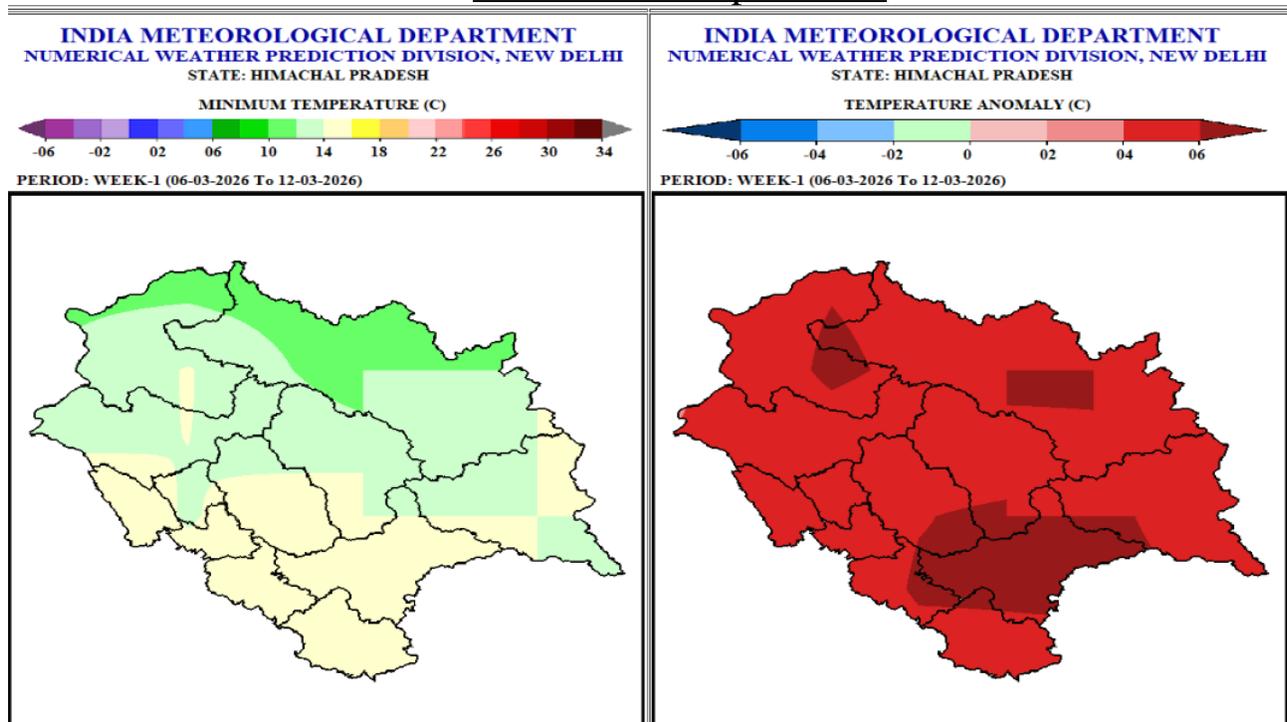

- Very light to light rain/snow likely at few places over the high hills and at isolated places over mid hills & low hills/plain areas of the state during few days of the week 1.
- Rainfall anomaly very likely to be below normal over most parts of the state.

Maximum Temperatures

- Maximum Temperatures very likely to be in the range of 06-20°C over most parts of the high hills; in the range of 20-30°C over most parts of the mid hills and in the range of 26-32°C over most parts of the low hills/plains during many days of the week 1.
- Maximum Temperatures very likely to be markedly above normal for most parts of the state in the week 1.

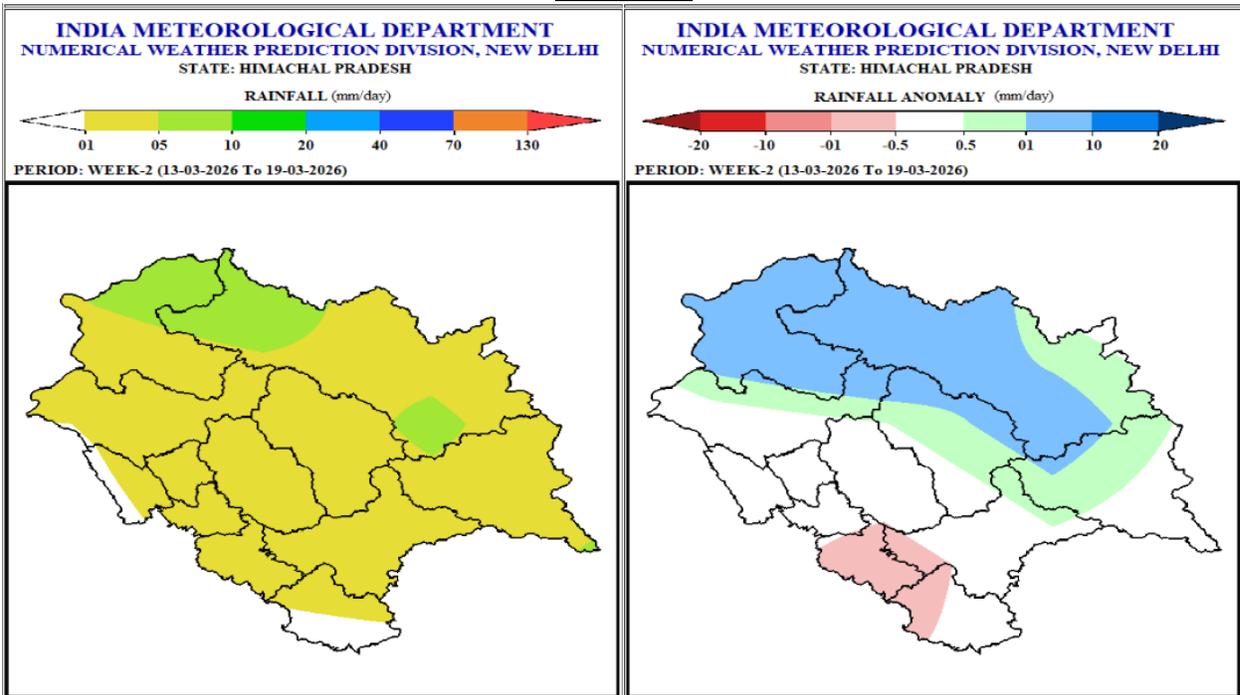

Minimum Temperatures

- Minimum Temperatures very likely to be in the range of 10-16°C over most parts of the low hills/plains; in the range of 04-14 °C over most parts of the mid hills and in the range of -04 to 06 °C over most parts of the high hills during many days of the week 1.
- Minimum Temperatures very likely to be appreciably above normal over many parts of the state and appreciably to markedly above normal for some parts of Lahaul-Spiti, Kullu, Mandi & Shimla districts in the week 1.

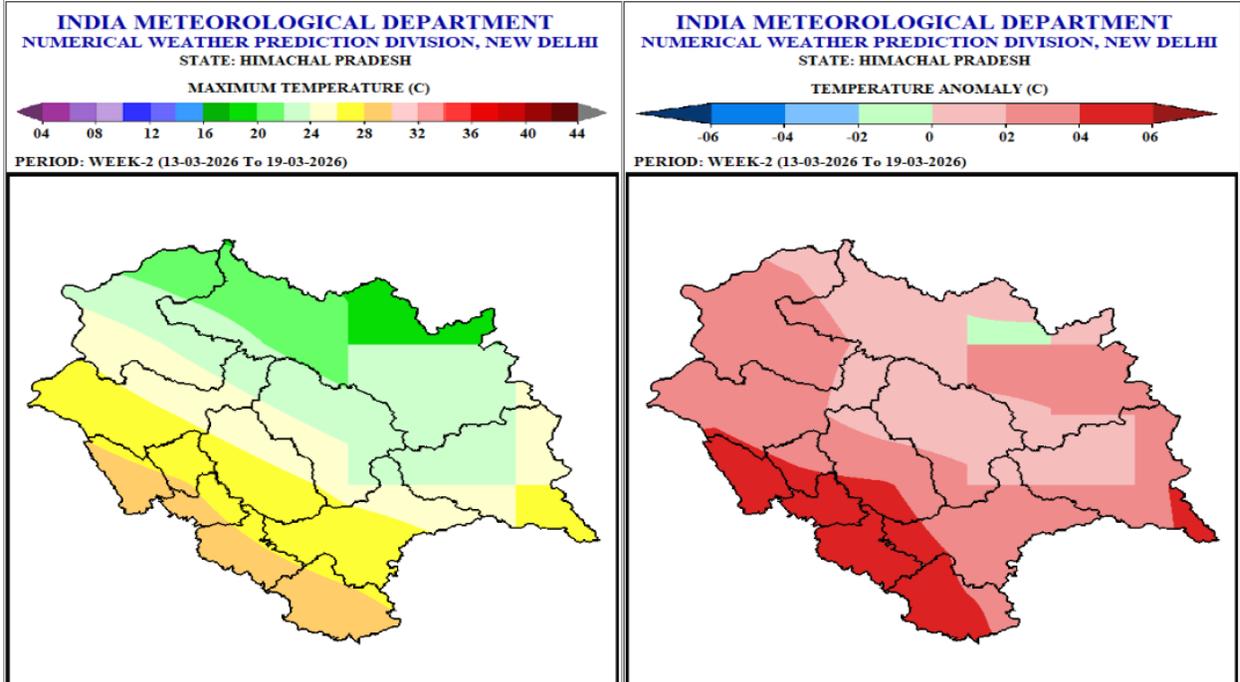

Week 2 (13th March 2026 – 19th March 2026)

Rainfall

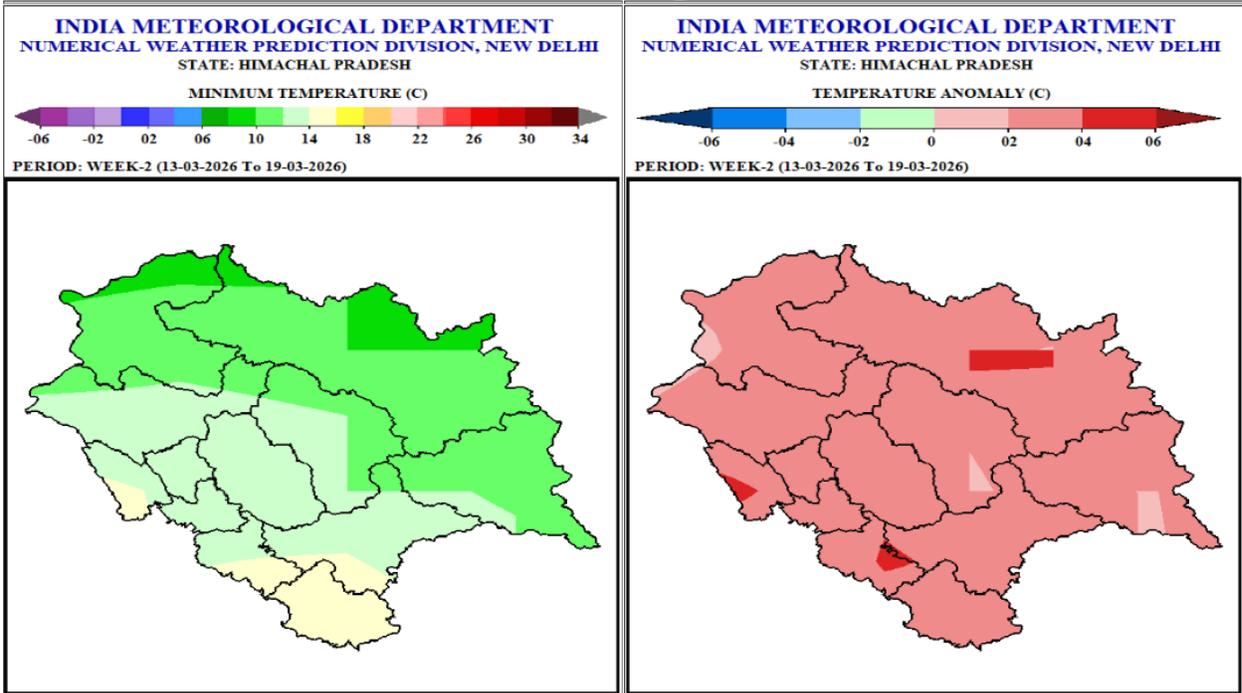

- Light to moderate rain/snow very likely over most parts of the state during many days of the week 2.
- Rainfall anomaly likely to be normal over many parts of the state except for some parts of Chamba, Lahaul-Spiti & Kullu districts where it is likely to be above normal in the week 2.

Maximum Temperatures

- Maximum Temperatures likely to be in the range of 04-14°C over many parts of the high hills; in the range of 14-22°C over many parts of the mid hills and in the range of 24-30°C over many parts of the low hills/plains during many days of the week 2.
- Maximum Temperatures likely to be appreciably above normal for low hills/plain areas of the state and above normal over many parts of the high hills and mid hills of the state except some parts of Lahaul-Spiti, Kullu, Kinnaur & Kangra districts where it is likely to be normal in the week 2.

Minimum Temperatures

- Minimum Temperatures are likely to be in the range of 08-14°C over many parts of the low hills/plains; in the range of 06-12°C over many parts of the mid hills and in the range of -06 to 02 °C over many parts of the high hills during many days of the week 2.
- Minimum Temperatures likely to be above normal over most parts of the state in the week 2.
