Press Release No. 2

Subject: Depression over East Central Arabian Sea and associated weather over Maharashtra during 26-30, October 2025

Weather systems:

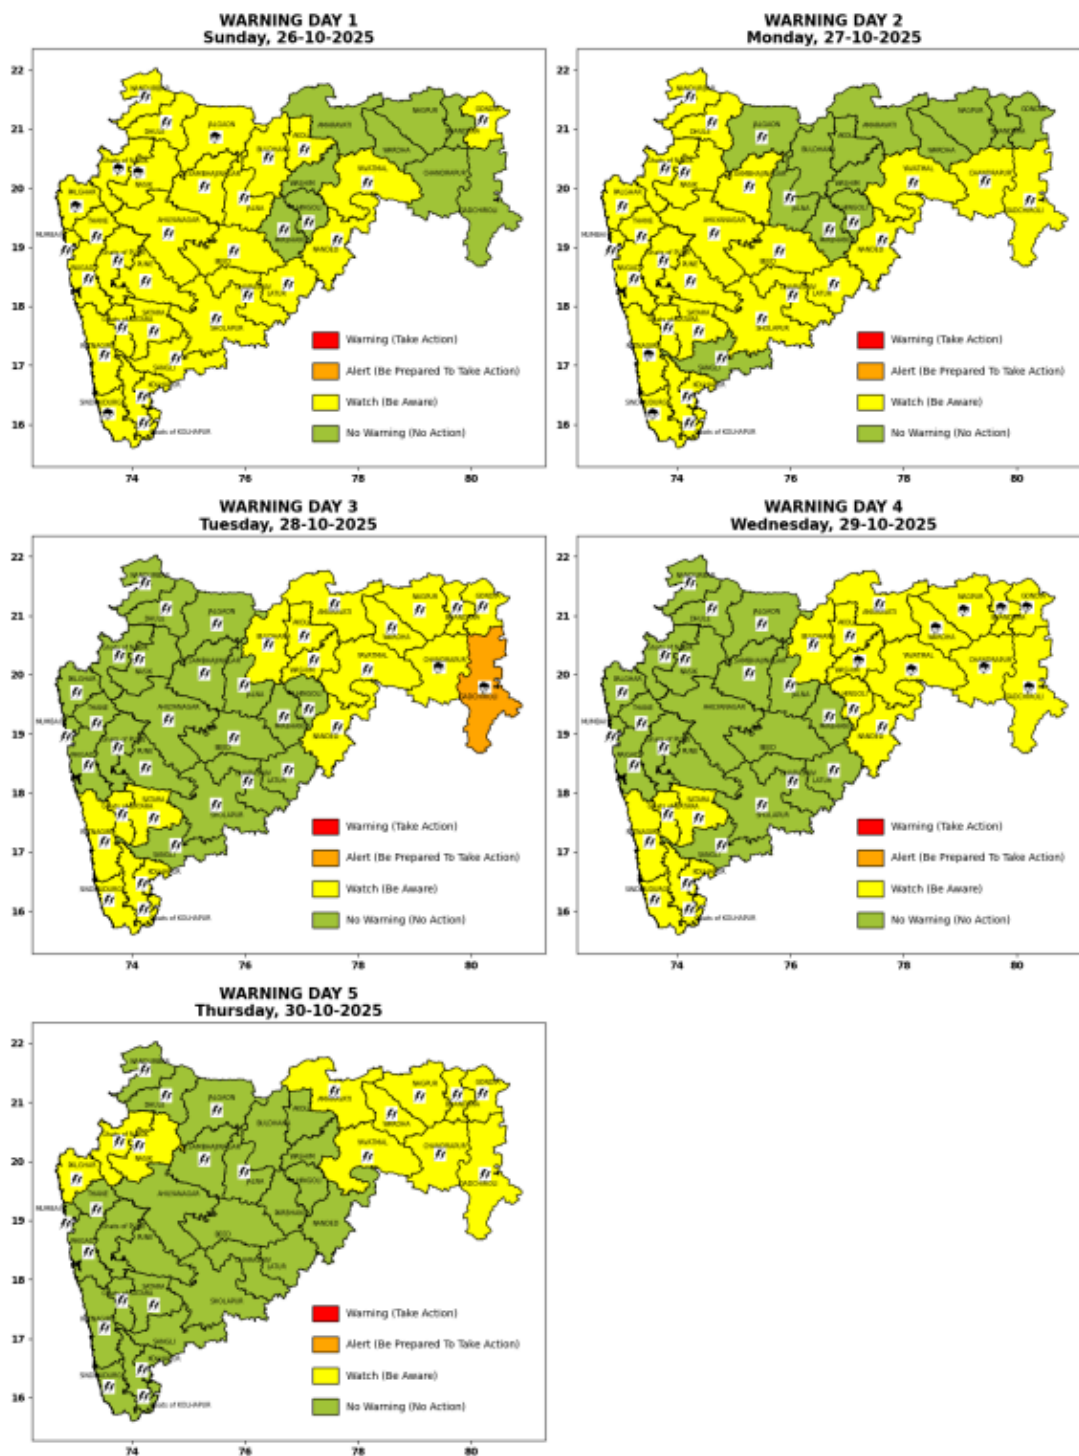

- Yesterday's Depression over eastcentral Arabian Sea moved nearly southwestwards with a speed of 13 kmph during past 6 hours and lay centered at 0830 hrs IST of today, the 26th October 2025, over the same region, near latitude 16.0°N & longitude 66.5°E, about 760 km west-southwest of Mumbai (Maharashtra), about 790 km west of Panjim (Goa), 870 km northwest of Aminidivi (Lakshadweep) and about 970 km west-northwest of Mangalore (Karnataka). It is likely to move nearly southwestwards initially and then south-southwestwards across Eastcentral Arabian Sea during the next 24 hours.
- A trough runs from the upper air cyclonic circulation associated with Depression over east central Arabian sea to West Madhya Pradesh across northeast Arabian sea and south Gujarat region between 1.5 & 3.1 km above mean sea level

Under its influence, **thunderstorms accompanied with lightning & gusty wind speed reaching 40-50 kmph** are very likely to occur over parts of **Maharashtra between 26-30 October 2025**. Fairly Widespread to Widespread moderate rainfall activity with Heavy rainfall at isolated places is expected over Konkan and Madhya Maharashtra during the above period. Isolated to scattered light/moderate rainfall accompanied with thunderstorms is expected over Marathwada, during 26 -29 October 2025.

Color coded District wise Forecast and Warnings:
