Internship programme at IMD Kolkata

1) A brief introduction of RMC Kolkata, India Meteorological Department

India Meteorological Department was established in 1875. It is the National Meteorological Service provider of the country and the principal government agency in all matters relating to meteorology and allied subjects.

Responsibilities of RMC Kolkata, IMD are as follows:

- To take meteorological observations and to provide current and forecast meteorological information for optimum operation of weather-sensitive activities like agriculture, irrigation, shipping, aviation, offshore oil explorations, etc.
- To warn against severe weather phenomena like tropical cyclones, Norwester, dust storms, heavy rains and snow, cold and heat waves, etc., which cause tremendous destruction of life and property.
- To provide meteorological statistics required for agriculture, water resource management, industries, oil exploration and other nation-building activities.
- To conduct and promote research in meteorology and allied disciplines.
- To detect and locate earthquakes and to evaluate seismicity in different parts of the country for development projects.
- Establishing Meteorological observatories.

- Analyse and interpret meteorological observations and issue forecasts.
- Scrutinize and process observational data for climatological archives.
- Apart from all above, RMC Kolkata, IMD imparts Internship or Dissertation at RMC Kolkata, Alipore in various fields of meteorology encompassing a wide range of specializations. Essential qualifications and terms and conditions are detailed as follows.

2) Eligibility/Essential Qualifications:
