Tuesday, November 19, 2024 Time of Issue: 1315 hours IST (MID-DAY)

ALL INDIA WEATHER SUMMARY AND FORECAST BULLETIN

Significant Weather Features:

Forecast & Warnings (upto 7 days):

- ✓ Light to moderate rainfall at a few places accompanied with isolated thunderstorm & lightning very likely over Tamil Nadu, Puducherry & Karaikal, Kerala & Mahe and Lakshadweep on 19th & 20th November, 2024.
- Light to moderate rainfall at many places over Andaman & Nicobar Islands during the week; Light to moderate rainfall at isolated places over Assam & Meghalaya on 19th & 20th and Nagaland, Manipur, Mizoram & Tripura during 20th 22nd November.
- ✓ **Isolated heavy rainfall** very likely over Tamil Nadu, Puducherry & Karaikal on 19th & 25th and Nicobar on 22nd & 23rd November.
- ✓ Isolated **Hailstorm** activity also very likely over Assam & Meghalaya on 19th & 20th November.
- Dense to very dense fog conditions very likely to prevail in isolated pockets of Uttar Pradesh in late night of 19th/early morning of 20th and over Punjab, Haryana-Chandigarh during late night of 21st to early morning of 24th November. Dense fog conditions very likely to prevail in night/ morning hours in isolated pockets of Punjab, Haryana-Chandigarh till 21st, Uttar Pradesh on 21st and Himachal Pradesh till 22nd November.

Temperature conditions and Forecast:

Temperature Conditions during past 24 hours till 0830 hours IST of today

No significant change in minimum temperature observed over most parts of the country during past 24 hours. Minimum temperatures are **appreciably above normal (3°C to 5°C)** at isolated places over Bihar and East Uttar Pradesh; **above normal (2°C to 3°C)** at a few places over Andaman & Nicobar Islands and Sub-Himalayan West Bengal & Sikkim; at isolated places over West Rajasthan, West Uttar Pradesh, Saurashtra & Kutch and Kerala & Mahe. These are **below normal (2°C to 3°C)** at a few places over Vidarbha, Odisha, Telangana; at isolated places over Chhattisgarh, Gangetic West Bengal, East Madhya Pradesh, East Rajasthan, Madhya Maharashtra, Coastal Andhra Pradesh & Yanam and near normal over rest parts of the country. Today, **the lowest minimum temperature** of **7.2°C** is reported at **Sikar (East Rajasthan)** over the plains of the country.

Forecast of temperature:

No significant change in minimum temperatures over most parts of the country during next 5 days.

Weather forecast over Delhi/NCR during 19th Nov. to 22nd Nov. 2024

Past Weather:

There has been a fall in maximum and minimum temperatures over Delhi/NCR during past 24hr. Maximum and Minimum temperature over Delhi is in the range of 22 to 23°C and 9 to 13°C respectively. The maximum temperature was below normal by 4 to 5°C and the minimum temperature was below normal by 1 to 5°C. Mainly moderate to dense fog/smog condition with predominant surface wind from northwest direction with wind speed reaching 06 to 12 kmph prevailed during past 24hr. Dense fog reported at Palam airport during early morning today. Safdarjung airport recorded lowest visibility 150-200 m during 0800 hours IST of 18 Nov. to 0600 hours IST of 19 Nov. which improved thereafter becoming 400m at 0700 hours IST. Palam airport recorded lowest visibility 600m during 0300 hours to 0800 IST. Mainly smog condition with wind speed less than 10 kmph northwest direction prevailed over the region in the forenoon today.

Weather Forecast:

19.11.2024: Mainly clear sky. The predominant surface wind is likely to be northwest with wind speed upto 06-08 kmph till evening. It would decrease thereafter becoming less than 06 kmph from northwest direction during night. Smog/shallow to moderate fog is likely in the evening/night.

20.11.2024: Mainly clear sky. The predominant surface wind is likely to be from northwest direction with speed less than 08 kmph during morning hours. Smog/moderate to dense fog is likely in the morning. The wind speed will increase thereafter becoming less than 10 kmph from northwest direction during afternoon. It will decrease thereafter becoming less than 06 kmph from northwest direction during evening and night. Smog/ shallow fog is likely in the evening/night.

21.11.2024: Mainly clear sky. The predominant surface wind is likely to be from northwest direction with speed less than 06 kmph during morning hours. Smog/ shallow to moderate fog is likely in the morning. The wind speed will gradually increase becoming 08-10 kmph from northwest direction during afternoon. It will decrease thereafter becoming less than 06 kmph from northwest direction during evening and night. Smog/ shallow fog is likely in the evening/night.

22.11.2024: Mainly clear sky. The predominant surface wind is likely to be from northwest direction with wind speed less than 06 kmph during morning hours. Smog/shallow to moderate fog in the morning. The wind speed will increase thereafter becoming 06-08 kmph from northwest direction during afternoon. It will gradually decrease becoming less than 04 kmph from northwest directions during evening and night. Smog/ shallow fog is likely in the evening/night.

Main Weather Observations:

- Rainfall distribution (from 0830 hours IST of yesterday to 0830 hours IST of today): at many places over Lakshadweep; at a few places over Andaman & Nicobar Islands, Tamil Nadu, Puducherry & Karaikal; at isolated places over Kerala & Mahe, Coastal Andhra Pradesh & Yanam, Coastal Karnataka.
- Heavy rainfall recorded (from 0830 hours IST of yesterday to 0830 hours IST of today): Heavy rainfall occurred at isolated places over Tamil Nadu, Puducherry & Karaikal.
- Significant amount of rainfall (from 0830 hours IST of yesterday to 0830 hours IST of today) (in cm): Tamil Nadu, Puducherry & Karaikal: Vedaranyam (dist Nagapattinam) 10, Kodiayakarai (dist Nagapattinam) 9, Velankanni (dist Nagapattinam) 8, Nalumukku (dist Tirunelveli), Oothu (dist Tirunelveli), Sembanarkoil PWD (dist Mayiladuthurai), Kakkachi (dist Tirunelveli) 7 each, Pattukottai (dist Thanjavur), Tirupoondi (dist Nagapattinam), Nannilam (dist Thiruvarur) 6 each.
- Fog conditions observed (at 0830 hours IST of today): Very Dense fog reported in isolated pockets of West Uttar Pradesh and Haryana and Dense fog in isolated pockets of Delhi and East Uttar Pradesh.
- Visibility reported (at 0830 hours IST of today) (<500metres): Visibility reported (in m): Haryana: Ambala-0; Delhi: Safdarjung-200; Uttar Pradesh: Bareilly & Meerut-0 each, Lucknow & Fursatganj-200 each.
- Minimum Temperature Departures (as on 19-11-2024): Minimum temperatures are appreciably above normal (3.1°C to 5.0°C) at isolated places over Bihar and East Uttar Pradesh; above normal (2°C to 3°C) at a few places over Andaman & Nicobar Islands and Sub-Himalayan West Bengal & Sikkim; at isolated places over West Rajasthan, West Uttar Pradesh, Saurashtra & Kutch and Kerala & Mahe. These are below normal (-2°C to -3°C) at a few places over Vidarbha, Odisha, Telangana; at isolated places over Chhattisgarh, Gangetic West Bengal, East Madhya Pradesh, East Rajasthan, Madhya Maharashtra, Coastal Andhra Pradesh & Yanam and near normal over rest parts of the country. Today, the lowest minimum temperature of 7.2°C is reported at Sikar (East Rajasthan) over the plains of the country. (Fig.4)
- Maximum Temperature Departures (as on 18-11-2024): Maximum temperatures were appreciably above normal (3.1°C to 5.0°C) at isolated places over Arunachal Pradesh, above normal (1.6°C to 3.0°C) at isolated places over Assam & Meghalaya, Sub-Himalayan West Bengal & Sikkim, East Uttar Pradesh, East Madhya Pradesh, Tamil Nadu, Puducherry & Karaikal, Kerala & Mahe, Jammu-Kashmir-Ladakh-Gilgit-Baltistan-Muzaffarabad, Himachal Pradesh. These were markedly below normal (-5.1°C or less) at isolated places over Haryana-Chandigarh-Delhi; below normal (-1.6°C to -3.0°C) at most places over West Uttar Pradesh, at isolated places over Rajasthan and Gangetic West Bengal and near normal over rest parts of the country. Yesterday, the highest maximum temperature of 35.6°C was reported at Karwar (Coastal Karnataka) over the country. (Fig. 2)

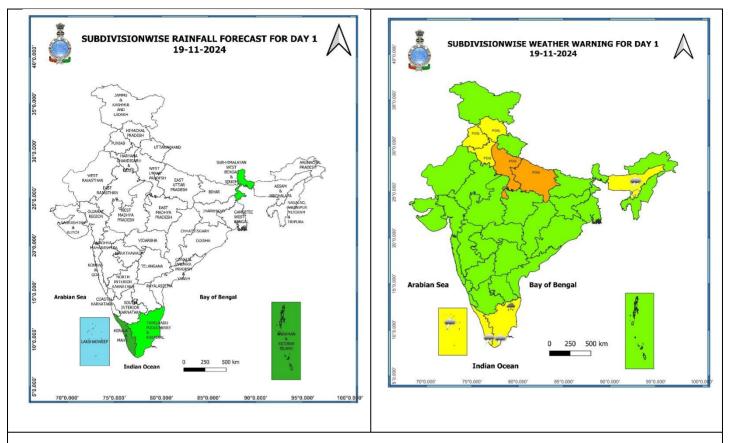

Meteorological Analysis (Based on 0830 hours IST)

- ✤ A cyclonic circulation lies over west Assam & neighbourhood at 3.1 km above mean sea level.
- A cyclonic circulation lies over south Tamil Nadu & adjoining Comorin area at 1.5 km above mean sea level.
- ✤ A cyclonic circulation lies over central Pakistan & neighbourhood at 1.5 km above mean sea level.
- Jet Stream Winds of the order upto 90 knots at 12.6 km above mean sea level are prevailing over Northwest India.
- An upper air cyclonic circulation is likely to form over South Andaman Sea and adjoining areas around 21st November. It is likely to move west-northwestwards and become a low pressure area over southeast Bay of Bengal around 23rd November. Thereafter, it is likely to continue move west-northwestwards and intensify into a depression over southwest Bay of Bengal during subsequent 2 days.
- The cyclonic circulation over south Bangladesh & neighbourhood extending upto 1.5 km above mean sea level has become less marked.
- The cyclonic circulation over Comorin area & neighbourhood at 0.9 km above mean sea level has become less marked.

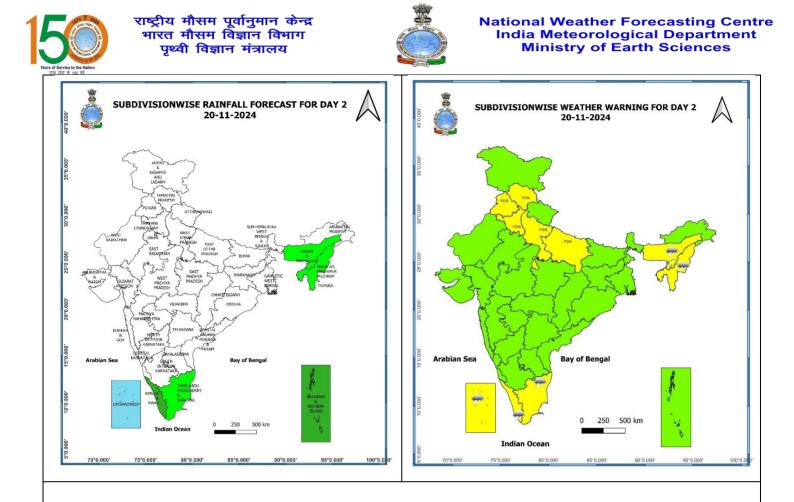

Weather Forecast & Warnings for next 7 days (Upto 0830 hours IST of 27th November, 2024)

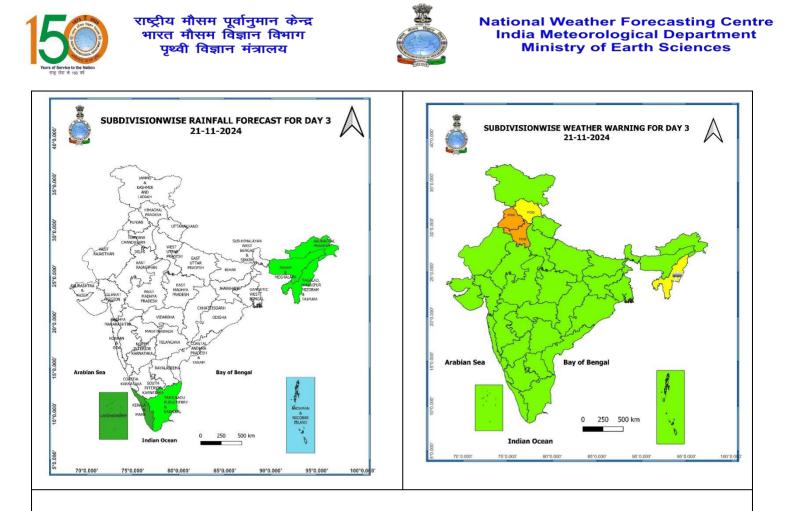

19 November (Day 1):

- ✤ Heavy rainfall (≥ 7 cm) very likely at isolated places over Tamil Nadu, Puducherry & Karaikal.
- Dense to very dense fog in isolated pockets of Uttar Pradesh; dense fog in isolated pockets of Himachal Pradesh, Punjab, Haryana-Chandigarh-Delhi; Shallow to moderate fog in isolated pockets of north Madhya Pradesh, West Bengal & Sikkim, Bihar, Jharkhand, Odisha in night/morning hours.
- Thunderstorm accompanied with lightning & hail very likely at isolated places over Assam & Meghalaya; with lightning at isolated places over Lakshadweep, Tamil Nadu, Puducherry & Karaikal and Kerala & Mahe.
- Squally weather with wind speed 35 kmph to 45 kmph gusting to 55 kmph is likely over Lakshadweep area, Maldives & adjoining Comorin area and southeast Arabian sea.

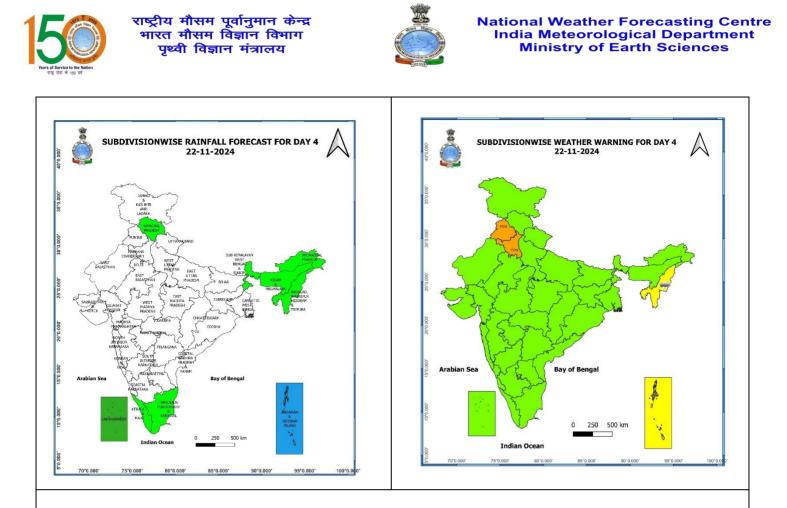

20 November (Day 2):

- Dense fog in isolated pockets of Uttar Pradesh, Himachal Pradesh, Punjab, Haryana-Chandigarh-Delhi; Shallow to moderate fog in isolated pockets of north Madhya Pradesh, West Bengal & Sikkim, Bihar, Jharkhand, Odisha in night/morning hours.
- Thunderstorm accompanied with hail very likely at isolated places over Assam & Meghalaya; with lightning at Nagaland, Manipur, Mizoram & Tripura, Tamil Nadu, Puducherry & Karaikal, Lakshadweep and Kerala & Mahe.

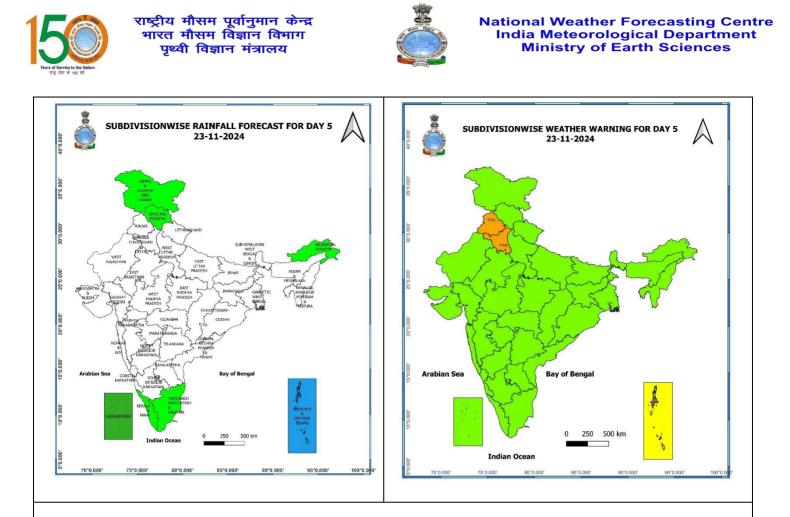

21 November (Day 3):

- Dense to very dense fog in isolated pockets of Punjab, Haryana-Chandigarh-Delhi; dense fog in isolated pockets of Himachal Pradesh; Shallow to moderate fog in isolated pockets of north Madhya Pradesh, Bihar in night/morning hours.
- Thunderstorm accompanied with lightning likely at isolated places over Nagaland, Manipur, Mizoram & Tripura.
- ✤ Squally weather with wind speed 35 kmph to 45 kmph gusting to 55 kmph is likely over southern parts of southeast Bay of Bengal and adjoining south Andaman Sea.

22 November (Day 4):

- ◆ Heavy rainfall (≥ 7 cm) very likely at isolated places over Andaman & Nicobar Islands.
- Dense to very dense fog in isolated pockets of Punjab, Haryana-Chandigarh-Delhi in night/morning hours.
- Thunderstorm accompanied with lightning likely at isolated places over Nagaland, Manipur, Mizoram & Tripura.
- Squally weather with wind speed 35 kmph to 45 kmph gusting to 55 kmph is likely over southern parts of southeast Bay of Bengal.

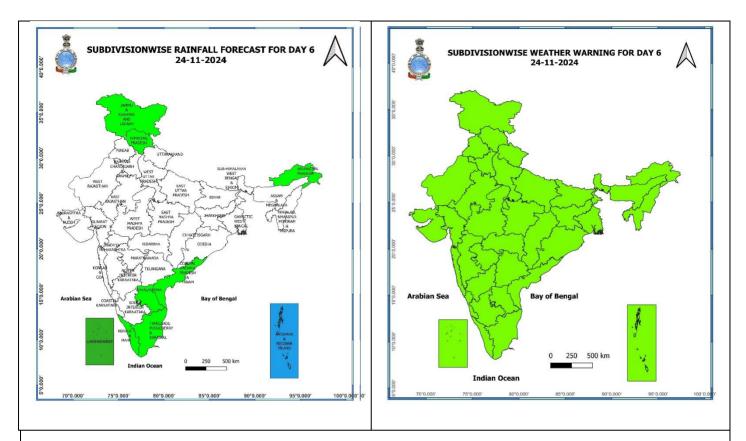

23 November (Day 5):

- ◆ Heavy rainfall (≥ 7 cm) very likely at isolated places over Andaman & Nicobar Islands.
- Dense to very dense fog in isolated pockets of Punjab, Haryana-Chandigarh-Delhi in night/morning hours.
- Squally weather with wind speed 35 kmph to 45 kmph gusting to 55 kmph is likely over south-central parts of south Bay of Bengal.

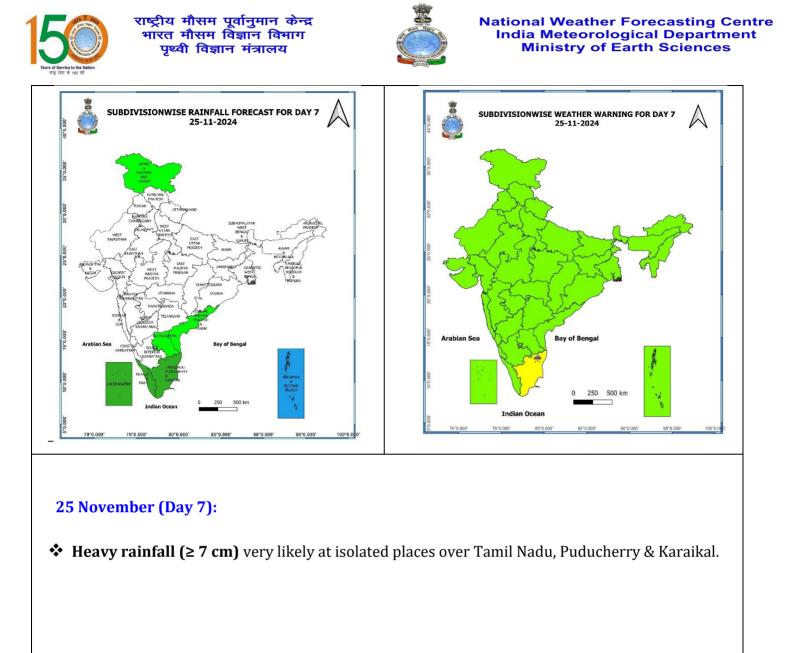

National Weather Forecasting Centre India Meteorological Department Ministry of Earth Sciences

24 November (Day 6):

* No Warning

Weather Outlook for subsequent 3 days (During 27th November – 29th November, 2024)

- Isolated to Scattered light rainfall likely over some parts of western Himalayan region and south peninsular India.
- Mainly dry weather will prevail over rest parts of country.
- Action may be taken based on **ORANGE** AND **RED** COLOUR warnings.
- Vulnerable regions likely urban and hilly areas action may be initiated for heavy rainfall warning.
- As the lead period increases forecast accuracy decreases.

Agromet advisories for Heavy Rainfall likely over Tamil Nadu, Puducherry & Karaikal:

- ✓ In Tamil Nadu, provide adequate drainage facilities for the removal of excess water from rice, cotton, sugarcane, turmeric and vegetable fields, coconut and banana orchards. Undertake propping in sugarcane.
- ✓ Provide mechanical support to banana plants to prevent lodging.

Impact expected due to dense/ very dense fog in the late night /morning hours over parts of Northwest India during next 3-4 days.

- Transport and Aviation:
 - May affect some airports, highways and railway routes in the areas of met- sub-division.
 - Difficult driving conditions with slower journey times.
 - Unless taken precautionary measures, it may lead to some road traffic collisions.
- Power Sector:
 - Chances of Tripping of Power lines in the very dense fog routes.
- ✤ Human Health:
 - Lung related health impacts: Dense fog contains particulate matter and other pollutants and in case exposed it gets lodged in the lungs, clogging them and decreasing their functional capacity which increases episodes of wheezing, coughing and shortness of breath.
 - Impact on people having asthma bronchitis: Long time exposure to dense fog may cause respiratory problem for people having asthma bronchitis and other lung related health problems.

• Eye Irritation: Dense fog contains pollutions of various types and these Pollutants in the air if exposed may tend to irritate the membranes of the eye causing various infections leading to redness or swelling of the eye.

Action suggested:

Transport and Aviation:

- Be careful while driving or outing through any transport.
- Use fog lights during driving.
- Be in touch with airlines, railways and state transport for schedule of your journey.
- Power Sector:
 - To keep ready Maintenance Team
 - Human Health: To avoid outing until unless emergency and to cover the face.
