## Impace and Actions

**Impact expected due to dense fog in the night /morning hours:**

- **Dense fog conditions** very likely in isolated pockets of Bihar, East Uttar Pradesh, Jharkhand and Odisha during 22nd-23rd November; Haryana Chandigarh & Delhi and Punjab on 22nd November; Tripura during 22nd-24th November.

**Transport and Aviation:**

- May affect some airports, highways and railway routes in the areas of met- sub-division.
- Difficult driving conditions with slower journey times.
- Unless taken precautionary measures, it may lead to some road traffic collisions.

**Power Sector:**

- Chances of Tripping of Power lines in the very dense fog routes..

**Human Health:**

- Lung related health impacts: Dense fog contains particulate matter and other pollutants and in case exposed it gets lodged in the lungs, clogging them and decreasing their functional capacity which increases episodes of wheezing, coughing and shortness of breath.
- Impact on people having asthma bronchitis: Long time exposure to dense fog may cause respiratory problem for people having asthma bronchitis and other lung related health problems.
- Eye Irritation: Dense fog contains pollutions of various types and these Pollutants in the air if exposed may tend to irritate the membranes of the eye causing various infections leading to redness or swelling of the eye.

**Action suggested:**

**Transport and Aviation:**

- Be careful while driving or outing through any transport.
- Use fog lights during driving.
- Be in touch with airlines, railways and state transport for schedule of your journey.

## Agromet advisories for various parts of the country

**Agromet advisories for likely impact of Heavy Rainfall**

- **Assam & Meghalaya and Nagaland,** harvest matured rice during rain free intervals and shift the harvestd produce at safe places. Provide adequate drainage in standing crop fields to avoid waterlogging.
- In **Tamil Nadu,** harvest matured crops of rice, groundnut, pulses and millets and store the harvested produce in safe and dry places. Strengthen field bunds and drainage channels in rice fields to drain out excess rainwater. Provide staking to tomato, chilli and creeper vegetables. Clear drainage around coconut basins and harvest mature nuts.

**Agromet advisories for likely impact of Thunderstorm / Gusty Winds**

- Shift the harvested produce in safer places or cover the produce with tarpaulin sheets in the fields. Tie the

harvested crops securely and cover them to minimize the risk of displacement from strong surface winds.
- Provide mechanical support to horticultural crops and staking or support to vegetables and young fruit plants / fruit-bearing plants to avoid lodging due to strong winds.

**Advisories for likely impact of Heavy Rainfall for Livestock / Poultry / Fisheries**

- Keep the animals inside the shed during heavy rainfall and provide them balanced feed.
- Store the feed and fodder in a safe place to prevent spoilage.
- Remove excess rainwater from fish ponds through properly screened outlets to prevent fish escape.
