Sub: - Severe Cyclonic Storm "Murasu" [Pronunciation: Murasu] over Westcentral & adjoining Southwest Bay of Bengal [Cyclone Warning for Andhra Pradesh and adjoining north Tamil Nadu coasts—Red Message]

The Severe Cyclonic Storm **"Murasu" [Pronunciation: Murasu]"** over Westcentral & adjoining Southwest Bay of Bengal moved west-northwestwards with a speed of 25 kmph during past 06 hours and lay centered at 0530 hours IST of today, the 02nd November, 2026 over the same region near Latitude 13.9°N and Longitude 81.8°E, about 200 km east-northeast of Chennai (Tamil Nadu), 210 km east-southeast of Nellore (Andhra Pradesh), 270 km south-southeast of Machilipatnam (Andhra Pradesh), 220 km east-southeast of Kavali (Andhra Pradesh), and 260 km southeast of Ongole (Andhra Pradesh).

It is very likely to move northwestwards and cross south Andhra Pradesh coast as a Severe Cyclonic Storm with wind speed of 100 to 110 kmph gusting to 120 kmph between Nellore and Narsapur close to Ongole during midnight (2330 Hrs IST) of today, the 02nd November to early hours (0400 Hrs IST) of tomorrow, the 3rd November, 2026.

Forecast location and intensity are given in following table:

Date/Time (IST)	Position (Lat. ^{0}N/ long. ^{0}E)	Maximum sustained surface wind speed (Kmph)	Category of cyclonic disturbance
02.11.26/0530	13.9/81.8	95-105 gusting to 115	Severe Cyclonic Storm
02.11.26/1130	14.2/81.1	100-110 gusting to 120	Severe Cyclonic Storm
02.11.26/1730	14.6/80.6	100-110 gusting to 120	Severe Cyclonic Storm
02.11.26/2330	15.1/80.1	100-110 gusting to 120	Severe Cyclonic Storm
03.11.26/0530	15.5/79.8	75-85 gusting to 95	Cyclonic Storm

03.11.26/1730	16.0/79.5	50-60 gusting to 70	Deep Depression
04.11.26/0530	16.5/78.2	40-50 gusting to 60	Depression

Rainfall warning:

Coastal Andhra Pradesh: Light to moderate rainfall at most places with heavy to very heavy rainfall at a few places and extremely heavy rainfall at isolated places on 2nd & 03rd November, and heavy rainfall at isolated places on 4th November.
Tamil Nadu: Light to moderate rainfall at many places with heavy to very heavy rainfall at isolated places on 2nd and it would increase becoming, light to moderate rainfall at most places with heavy to very heavy rainfall at isolated places 3rd November.
South Odisha: Light to moderate rainfall at many places with heavy rainfall at isolated places on 2nd November. It would increase becoming light to moderate rainfall at most places with heavy to very heavy rainfall at isolated places on 3rd & 4th November.
Rayalaseema: Light to moderate rainfall at most places with heavy to very heavy rainfall at isolated places on 2nd and 3rd November.
Telangana: Light to moderate rainfall at many places with heavy rainfall at isolated places during 2nd to 4th with isolated extremely heavy rainfall at isolated places on 3rd November, 2026.
Chhattisgarh: Light to moderate rainfall at many places with heavy rainfall at isolated places over South Chhattisgarh on 2nd and heavy to very heavy rainfall at isolated places on 3rd & 4th November.

Wind warnings:

- **Southwest Bay of Bengal**:
  Gale wind speed reaching 80-90 gusting to 100 kmph is prevailing. It would decrease gradually becoming 50-60 gusting to 70 kmph from evening of 02nd November and 40-50 gusting to 60 kmph by 03rd November morning and decrease thereafter.
- **Westcentral Bay of Bengal**:
  Gale wind speed reaching 95-105 gusting to 115 kmph is prevailing. It would increase gradually becoming 100-110 gusting to 120 kmph by evening of 02nd November till 03rd November forenoon. It would decrease gradually thereafter, becoming 55-65 gusting to 75 kmph by 3rd November afternoon and 40-50 gusting to 60 kmph by 3rd midnight for subsequent 6 hours and improve thereafter.
- **Along & off Andhra Pradesh coast (Krishna, Bapatla, Prakasham, S P S R Nellore, Guntur, Eluru, NTR, Palnadu and West Godavari)**:
  Squally wind speed reaching 40-50 gusting to 60 kmph is prevailing along and off Andhra Pradesh, coast. It is likely to increase becoming gale wind speed reaching 65-75 gusting to 85 kmph by noon of 2nd November, 80-90 gusting to 100 kmph from evening of 2nd and 100-110 gusting to 120 kmph by midnight of 02nd November till early morning of 3rd November. It would decrease gradually thereafter, becoming 80-90 gusting to 100 kmph till noon of 3rd November, becoming 55-65 gusting to 75 kmph by 3rd, afternoon and 40-50 gusting to 60 kmph by 3rd midnight for subsequent 6 hours and decrease thereafter.

- **Along & off North Tamil Nadu- Puducherry coasts**:
  Squally weather with wind speed reaching 40-50 gusting to 60 kmph is prevailing. It would increase gradually becoming 55-65 gusting to 75 kmph from 2nd morning and 60-70 gusting to 80 kmph from 2nd evening till morning of 3rd November. It would decrease gradually thereafter, becoming 40-50 gusting to 60 kmph from 3rd November afternoon for next 6 hours.

- **Adjoining Areas of Northwest Bay of Bengal and along & off South Odisha coast**:
  Squally weather with wind speed reaching 40-50 gusting to 60 kmph is likely to commence from 2nd November, morning. It is likely to increase becoming 50-60 gusting to 70 kmph from 2nd November, evening to 3rd November noon. It would decrease gradually thereafter, becoming 40-50 gusting to 60 kmph from 3rd November night to 4th November, afternoon.

- **Telangana (Khammam, Suryapet, Nalgonda, Nagarkurnool, Wanaparthy, Mahabubabad, Warangal, Jangaon, Karimnagar & B. Kothagudem) & Rayalaseema (Chittoor & Tirupathi)**
  Squally weather with wind speed reaching 40-50 gusting to 60 kmph is likely to commence from 2nd November afternoon, becoming 55-65 gusting to 75 kmph from 2nd midnight and 70-80 gusting to 90 kmph from early hours to afternoon of 3rd November. It would decrease gradually thereafter, becoming

40-50 gusting to 60 kmph from 3rd November midnight for next 6 hours.

Sea condition:

- **Southwest Bay of Bengal**:
  High sea condition would prevail till 02nd November morning. It would improve gradually thereafter, becoming Very Rough to Rough from 02nd November afternoon to 03rd November morning.

- **Westcentral Bay of Bengal**:
  Very High Sea condition would prevail till 3rd November, noon. Thereafter, it would start improving becoming Very Rough to Rough by 4th morning and improve thereafter.

- **Along & off Andhra Pradesh coast**: Prevailing high Sea condition is likely to become high to very high from morning of 02nd November till 3rd November, noon. Thereafter, it would start improving becoming Very Rough to Rough till 4th afternoon and improve thereafter.

- **Along & off North Tamil Nadu- Puducherry coasts**:
  Sea condition is likely to be Rough to Very Rough till 4th November, morning. It would improve gradually thereafter.

- **Adjoining Areas of Northwest Bay of Bengal and along & off South Odisha coast**:
  Sea condition is likely to be rough to very rough from 2nd November evening till 4th November, afternoon and would improve thereafter.

Storm Surge Warning:

Storm surge of about 1.0-1.5 m height above astronomical tide is very likely to inundate low lying areas of South coastal Andhra Pradesh during the time of landfall. The maximum peak surge is expected over Bapatla and also over Krishna and Prakasam districts.

Fishermen warnings:

Fishermen are advised not to venture into:

- Southeast Bay of Bengal on 2nd November,
- Southwest Bay of Bengal till morning of 4th November
- Westcentral Bay of Bengal till 4th November afternoon
- Along & off Andhra Pradesh coast from morning of 2nd to 4th November afternoon
- Along & off North Tamil Nadu- Puducherry coasts till 4th November morning.
- Adjoining Areas of Northwest Bay of Bengal and along & off South Odisha coast from evening of 2nd to 4th November afternoon

Damage Expected and Action suggested:

(a) Damage Expected over Coastal Andhra Pradesh and Action suggested

- **Structure:**
  - Major Damage to thatched houses/huts/ kutcha houses.
  - Roof tops may blow off
  - Unattached metal sheets may fly
  - Potential threat to vulnerable structures, tin house, asbestos house.
  - Potential threat to structures from detached hoardings, uprooting of trees, breaking of branches
- **Communication and Power:**
  - Minor damage to power and communication poles.
  - Breaking of tree branches, uprooting of large avenue trees.
- **Agriculture:**
  - Major damage to standing and coastal crops, plantations, orchards, falling of green coconuts, tearing of palm fronds. Major damage to banana, Papaya and drumstick trees.
  - Uprooting of trees and breaking of tree branches
  - Damage to horticulture and standing crops.
  - Damage to embankments/ salt pans.

- **Marine interest:**
  - Very high Sea with wave height of 9-14 metre, Visibility severely affected
  - Movement in boats/ships unsafe
- **Roads/Rail:**
  - Major damage to Kutcha and Pucca roads.
  - Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
  - Localized Flooding of roads, water logging in low lying areas.
  - Disruption of traffic in major cities due to water logging in roads leading to increased travel time.
  - Disruption of railways, overhead powerlines and signalling systems.
- **Drinking water/sanitation and human/animal health**.
- **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, possible landslides in hilly areas

Action Suggested

- Total suspension of fishing operations.
- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Total suspension of offshore/onshore operations
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 3rd November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 3rd November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 3rd November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 3rd November.

(b) Damage Expected over South Odisha, Rayalaseema and adjoining areas of north Tamil Nadu & Telangana and Action suggested

- **Structure:**
  - Damage to thatched houses/ kutcha houses.
  - Potential threat to vulnerable structures, tin house, asbestos house.
- **Agriculture:**
  - Damage to standing crops, plantations, orchards, falling of green coconuts, tearing of palm fronds. Major damage to banana, Papaya and drumstick trees.
  - Uprooting of small trees and breaking of tree branches
  - Damage to horticulture and standing crops and coastal crops.
- **Marine interest:** Very rough seas. Sea waves about 4-6 m high. Visibility severely affected
- **Roads/Rail:**
  - Some breaches in Kutcha Road due to flooding.
  - Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
  - Localized Flooding of roads, water logging in low lying areas.
  - Disruption of traffic in major cities due to water logging in roads leading to increased travel time.
- **Drinking water/sanitation and human/animal health**.

• **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, landslides in hilly areas

Action Suggested

- Total suspension of fishing operations during 2nd to 4th November afternoon.
- Fishermen are advised not venture into sea till 4th November afternoon
- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Offshore/onshore operations need to be judiciously regulated
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 3rd November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 3rd November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 3rd November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 3rd November.

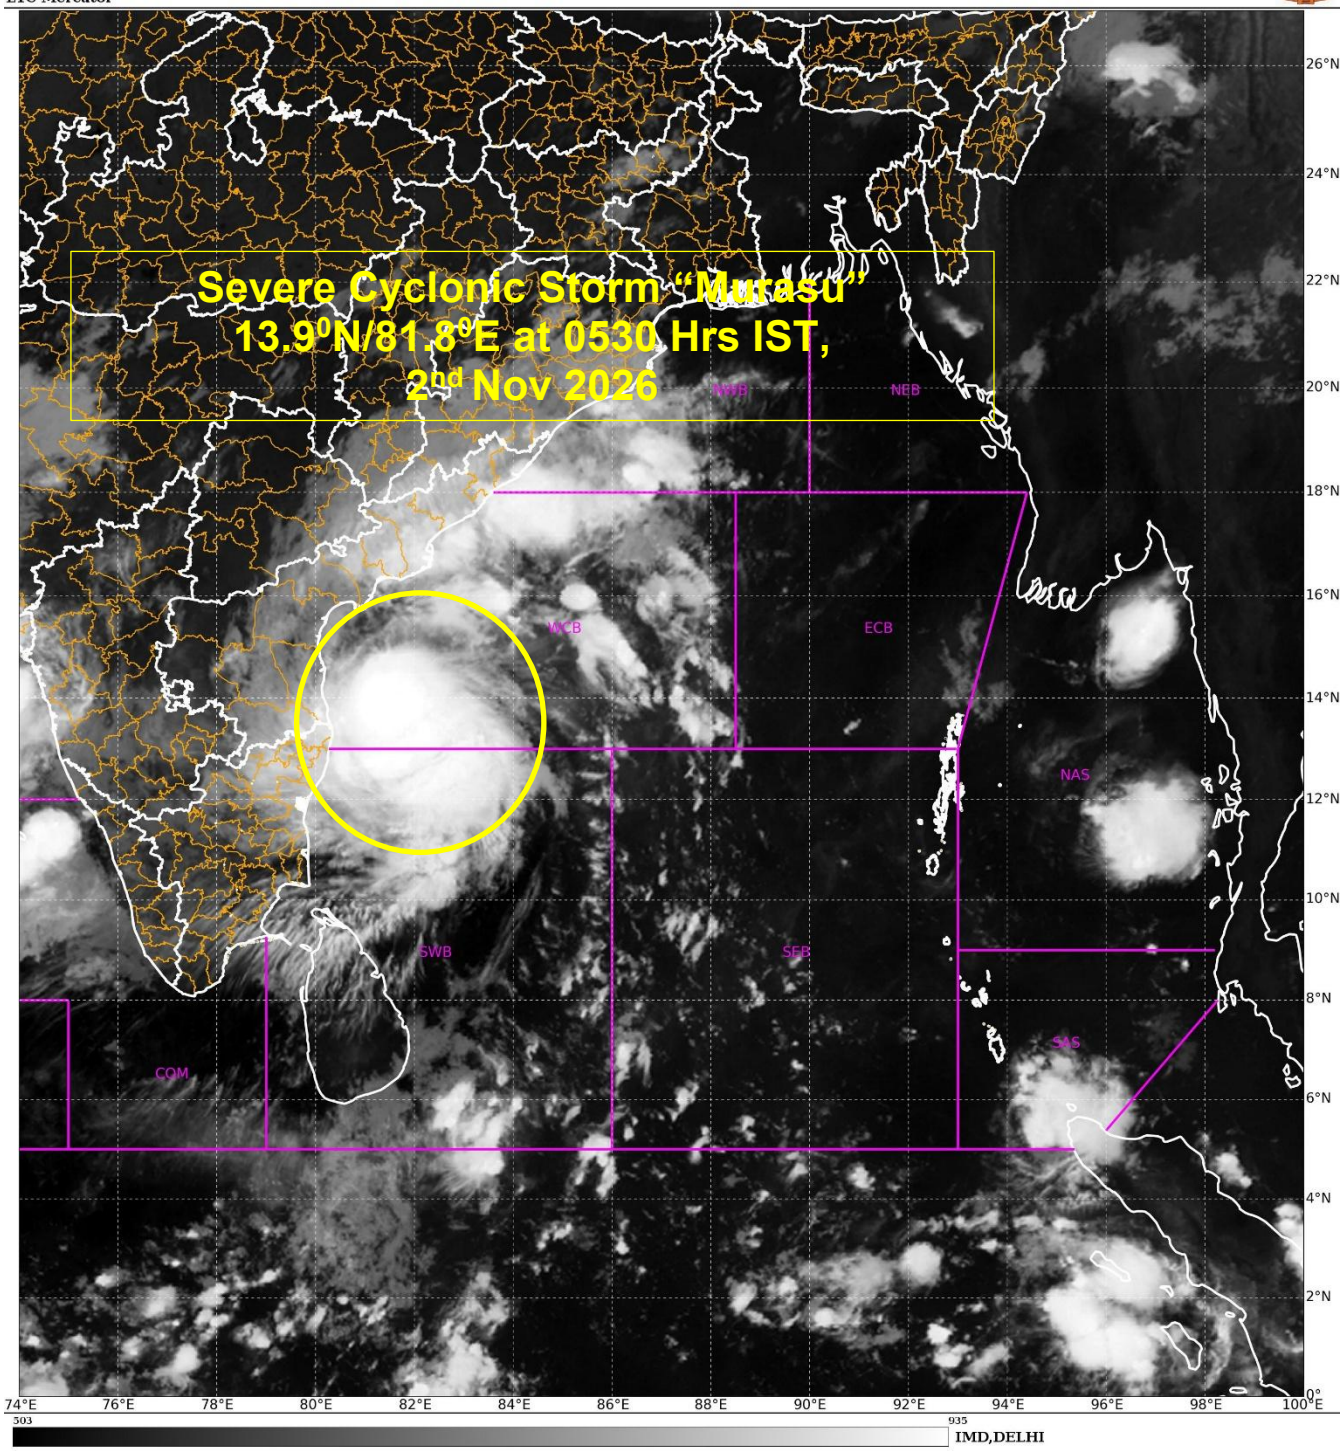

The next update will be issued at 1130 hrs IST of today, the 2nd November, 2026
