Sub: - Severe Cyclonic Storm "Murasu" [Pronunciation: Murasu] over Westcentral Bay of Bengal close to south Andhra Pradesh coast [Cyclone Warning for Andhra Pradesh and adjoining north Tamil Nadu coasts and Post Landfall Outlook —Red Message]

The Severe Cyclonic Storm "Murasu" [Pronunciation: Murasu]" over Westcentral Bay of Bengal off south Andhra Pradesh coast moved north-northwestwards with a speed of 09 kmph during past 06 hours and lay centered at 0230 hours IST of today, the 03rd November, 2026 over Westcentral Bay of Bengal close to south Andhra Pradesh coast, near Latitude 15.3°N and Longitude 80.3°E, about 30 km southeast of Ongole (Andhra Pradesh), 50 km northeast of Kavali (Andhra Pradesh), 100 km north-northeast of Nellore (Andhra Pradesh), and 140 km southwest of Machilipatnam (Andhra Pradesh).

Landfall process continues, the inner spiral band in the northern sector entered into the south Coastal Andhra Pradesh. Wall cloud region is entering into the land. It is very likely to continue to move north-northwestwards and cross south Andhra Pradesh coast as a Severe Cyclonic Storm with wind speed of 100 to 110 kmph gusting to 120 kmph between Nellore and Narsapur, close to Ongole during next 3 hours.

The Severe Cyclonic Storm "Murasu" is under the continuous surveillance of Doppler Weather Radars at Chennai, and Machilipatnam.

.

Forecast location and intensity are given in following table:

Date/Time (IST)	Position (Lat. ^{0}N/ long. ^{0}E)	Maximum sustained surface wind speed (Kmph)	Category of cyclonic disturbance
03.11.26/0230	15.3/80.3	100-110 gusting to 120	Severe Cyclonic Storm
03.11.26/0530	15.5/80.2	100-110 gusting to 120	Severe Cyclonic Storm
03.11.26/1130	15.9/79.9	70-80 gusting to 90	Cyclonic Storm
03.11.26/1730	16.3/79.8	65-75 gusting to 85	Cyclonic Storm
03.11.26/2330	16.7/79.8	55-65 gusting to 75	Deep Depression
04.11.26/1130	17.4/79.9	40-50 gusting to 60	Depression

(i) Rainfall warning:

Coastal Andhra Pradesh: Light to moderate rainfall at most places with heavy to very heavy rainfall at a few places and extremely heavy rainfall at isolated places on 03rd November, and heavy rainfall at isolated places on 4th November.

North Tamil Nadu: Light to moderate rainfall at many places with heavy to very heavy rainfall at isolated places on till morning of today and isolated heavy rainfall on 3rd November.

South Odisha: Light to moderate rainfall at many places with heavy rainfall at isolated places over tillg 2nd -4th November.

Rayalaseema: Light to moderate rainfall at most places with heavy to very heavy rainfall at a few places and extremely heavy rainfall at isolated places on 2nd and 3rd November and isolated heavy rainfall on 4th November.

Telangana: Light to moderate rainfall at many places with heavy to very heavy rainfall at isolated places on 2nd November. It would increase becoming light to moderate rainfall at most places with heavy to very heavy rainfall at few places with extremely heavy rainfall at isolated places on 3rd November. Isolated heavy rainfall at isolated places is also likely on 4th November, 2026.

Chhattisgarh: Light to moderate rainfall at many places with heavy rainfall at isolated places 3rd -4th November.

(ii) Wind warnings:

- **Westcentral Bay of Bengal**:
  Gale wind speed reaching 100-110 gusting to 120 kmph is likely to prevailing and would decrease gradually after landfall, becoming 70-80 kmph gusting to 90 kmph by morning of 3rd, 45-55 gusting to 65 kmph by 4th November morning and improve thereafter.
- **Southwest Bay of Bengal**:
  Gale wind speed reaching 80-90 gusting to 100 kmph would prevailing. It would gradually decrease becoming 50-60 gusting to 70 kmph from morning of 03rd November and 40-50 gusting to 60 kmph by 03rd November evening and decrease thereafter.
- **Along & off Andhra Pradesh coast (Krishna, Bapatla, Prakasham, SPSR Nellore, Guntur, Eluru, NTR, Palnadu and West Godavari districts)**:
  Gale wind speed reaching 100-110 gusting to 120 kmph is prevailing and will continue till early morning of 3rd November. After Landfall, it would decrease gradually becoming 70-80 gusting to 90 kmph by morning of 3rd November, becoming 40-50 kmph gusting to 60 kmph by 3rd evening and decrease thereafter.
- **Along & off North Tamil Nadu (Thiruvallur, Ranippettai, Kancheepuram, Chengalpattu & Chennai districts) - Puducherry coasts**:
  Gale wind speed reaching 60-70 gusting to 80 kmph is prevailing and will continue till early morning of 3rd November. It would decrease becoming 40-50 gusting to 60 kmph till 3rd November evening and decrease thereafter.
- **Adjoining Areas of Northwest Bay of Bengal and along & off South Odisha coast (Malkangiri, Koraput, Rayagada, Gajapati and Ganjam districts)**:
  Squally weather with wind speed reaching 50-60 gusting to 70 kmph is prevailing will continue till 3rd November noon. It would decrease gradually thereafter.
- **Telangana (Khammam, Suryapet, Nalgonda, Nagarkurnool, Wanaparthy, Mahabubabad,**

Warangal, Jangaon, Karimnagar & B. Kothagudem) & Rayalaseema (Chittoor & Tirupathi)
Squally weather with wind speed reaching 55-65 gusting to 75 kmph is prevailing and becoming Gale wind speed reaching 70-80 gusting to 90 kmph from early hours to forenoon of 3rd November. It would decrease gradually thereafter.

(iii) Sea condition:

❖ **Westcentral Bay of Bengal**:
Very High Sea condition would prevail till 3rd November, morning. Thereafter, it would start improving becoming Very Rough to Rough by 4th morning and improve thereafter.

❖ **Southwest Bay of Bengal**:
High sea condition is prevailing and It would improve gradually thereafter, becoming Very Rough to Rough by 03rd November evening.

❖ **Along & off Andhra Pradesh coast**: High to very high sea conditions till 3rd November, morning. Thereafter, it would start improving becoming Very Rough to Rough till 4th morning and improve thereafter.

❖ **Along & off North Tamil Nadu- Puducherry coasts**:
Sea condition is likely to be Rough to Very Rough till 4th November, morning. It would improve gradually thereafter.

❖ **Adjoining Areas of Northwest Bay of Bengal and along & off South Odisha coast**:
Rough to very rough sea conditions prevailing and will continue till 3rd November morning and rough sea condition till 3rd November, evening and would improve thereafter.

(iv) Storm Surge Warning:

The storm surge of height more than 0.5 m above astronomical tide is likely to inundate low lying areas of South Andhra Pradesh coast from evening of today, the 2nd November till morning of tomorrow, the 3rd November with peak surge of 1.0 – 1.5 m above astronomical tides till early hours of tomorrow, the 3rd Nov. The maximum peak surge is expected over Bapatla, Krishna and Prakasam district.

(v) Flash Flood Guidance:

Moderate flash flood risk likely over few watersheds & neighbourhoods of following Met Sub-divisions with specified districts during next 24 hours.
Coastal Andhra Pradesh & Yanam - Bapatla, Eluru, Guntur, Krishna, Ntr District, Palnadu, Prakasam and SPSR Nellore districts.
Rayalaseema - Annamayya District, Tirupati, Nandyal and Ysr District districts.
Tamil Nadu - Puducherry & Karaikal - Tiruvannamalai and Villupuram districts

(vi) Fishermen warnings:
Fishermen are advised not to venture into:

- ❖ Southwest Bay of Bengal till morning of 4th November
- ❖ Westcentral Bay of Bengal till 4th November afternoon
- ❖ Along & off Andhra Pradesh coast till 4th November afternoon
- ❖ Along & off North Tamil Nadu- Puducherry coasts till 4th November morning.
- ❖ Adjoining Areas of Northwest Bay of Bengal and along & off South Odisha coast till 4th November afternoon

(vii) Damage Expected and Action suggested:

(a) Damage Expected over Coastal Andhra Pradesh and Action suggested

- **Structure:**
  - Major Damage to thatched houses/huts/ kutcha houses.
  - Roof tops may blow off
  - Unattached metal sheets may fly
  - Potential threat to vulnerable structures, tin house, asbestos house.
  - Potential threat to structures from detached hoardings, uprooting of trees, breaking of branches
- **Communication and Power:**

- Minor damage to power and communication poles.
- Breaking of tree branches, uprooting of large avenue trees.

• **Agriculture:**
- Major damage to standing and coastal crops, plantations, orchards, falling of green coconuts, tearing of palm fronds. Major damage to banana, Papaya and drumstick trees.
- Uprooting of trees and breaking of tree branches
- Damage to horticulture and standing crops.
- Damage to embankments/ salt pans.

• **Marine interest:**
- Very high Sea with wave height of 9-14 metre, Visibility severely affected
- Movement in boats/ships unsafe

• **Roads/Rail:**
- Major damage to Kutcha and Pucca roads.
- Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
- Localized Flooding of roads, water logging in low lying areas.
- Disruption of traffic in major cities due to water logging in roads leading to increased travel time.
- Disruption of railways, overhead powerlines and signalling systems.

• **Drinking water/sanitation and human/animal health**.

• **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, possible landslides in hilly areas

Action Suggested

- Total suspension of fishing operations.
- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Total suspension of offshore/onshore operations
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 3rd November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 3rd November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 3rd November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 3rd November.

(b) Damage Expected over South Odisha, Rayalaseema and adjoining areas of north Tamil Nadu & Telangana and Action suggested

• **Structure:**
- Damage to thatched houses/ kutcha houses.
- Potential threat to vulnerable structures, tin house, asbestos house.

• **Agriculture:**
- Damage to standing crops, plantations, orchards, falling of green coconuts, tearing of palm fronds. Major damage to banana, Papaya and drumstick trees.
- Uprooting of small trees and breaking of tree branches
- Damage to horticulture and standing crops and coastal crops.

• **Marine interest:** Very rough seas. Sea waves about 4-6 m high. Visibility severely affected

• **Roads/Rail:**

- Some breaches in Kutcha Road due to flooding.
– Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
– Localized Flooding of roads, water logging in low lying areas.
– Disruption of traffic in major cities due to water logging in roads leading to increased travel time.

• **Drinking water/sanitation and human/animal health**.
• **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, landslides in hilly areas

Action Suggested

- Total suspension of fishing operations till 4th November afternoon.
- Fishermen are advised not venture into sea till 4th November afternoon
- Coastal hutment dwellers to be moved to safer places. People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Movement in motor boats and small ships unsafe
- Offshore/onshore operations need to be judiciously regulated
- Fisheries Departments and fishing harbor authorities are advised to alert fishermen and monitor subsequent IMD marine warnings. Fishermen should plan their activities in accordance with the latest area-specific advisories till 3rd November.
- Shipping, port and offshore operators are advised to review operational preparedness and monitor subsequent forecasts for possible restrictions on weather-sensitive activities till 3rd November.
- Maritime authorities may review communication, vessel-tracking and search-and-rescue preparedness, particularly for vessels operating in areas likely to be affected till 3rd November.
- The extent and timing of restrictions on fishing, shipping, port and marine tourism activities should be guided by subsequent forecasts and warnings issued by IMD till 3rd November.

(viii) Post-landfall outlook for interior districts of Coastal Andhra Pradesh, Rayalaseema, South Odisha, Telangana and South Chhattisgarh:

After landfall, the Severe Cyclonic Storm “Murasu” is very likely to move west-northwestwards and maintain the intensity of severe cyclonic storm till early morning hours and weaken into a Cyclonic Storm in the morning of 3rd November. Gale wind speed reaching 70-80 kmph gusting to 90 kmph will continue over interior districts of Coastal Andhra Pradesh, Rayalaseema and Telangana till noon of 3rd November. Thereafter, it will gradually decrease becoming squally wind speed reaching 55-65 kmph gusting to 75 kmph by evening of 3rd November and 40-50 kmph gusting to 60 kmph by early morning of 4th November. Details of heavy rainfall & wind warnings and corresponding impacts are given in (i), (ii) and (vi).

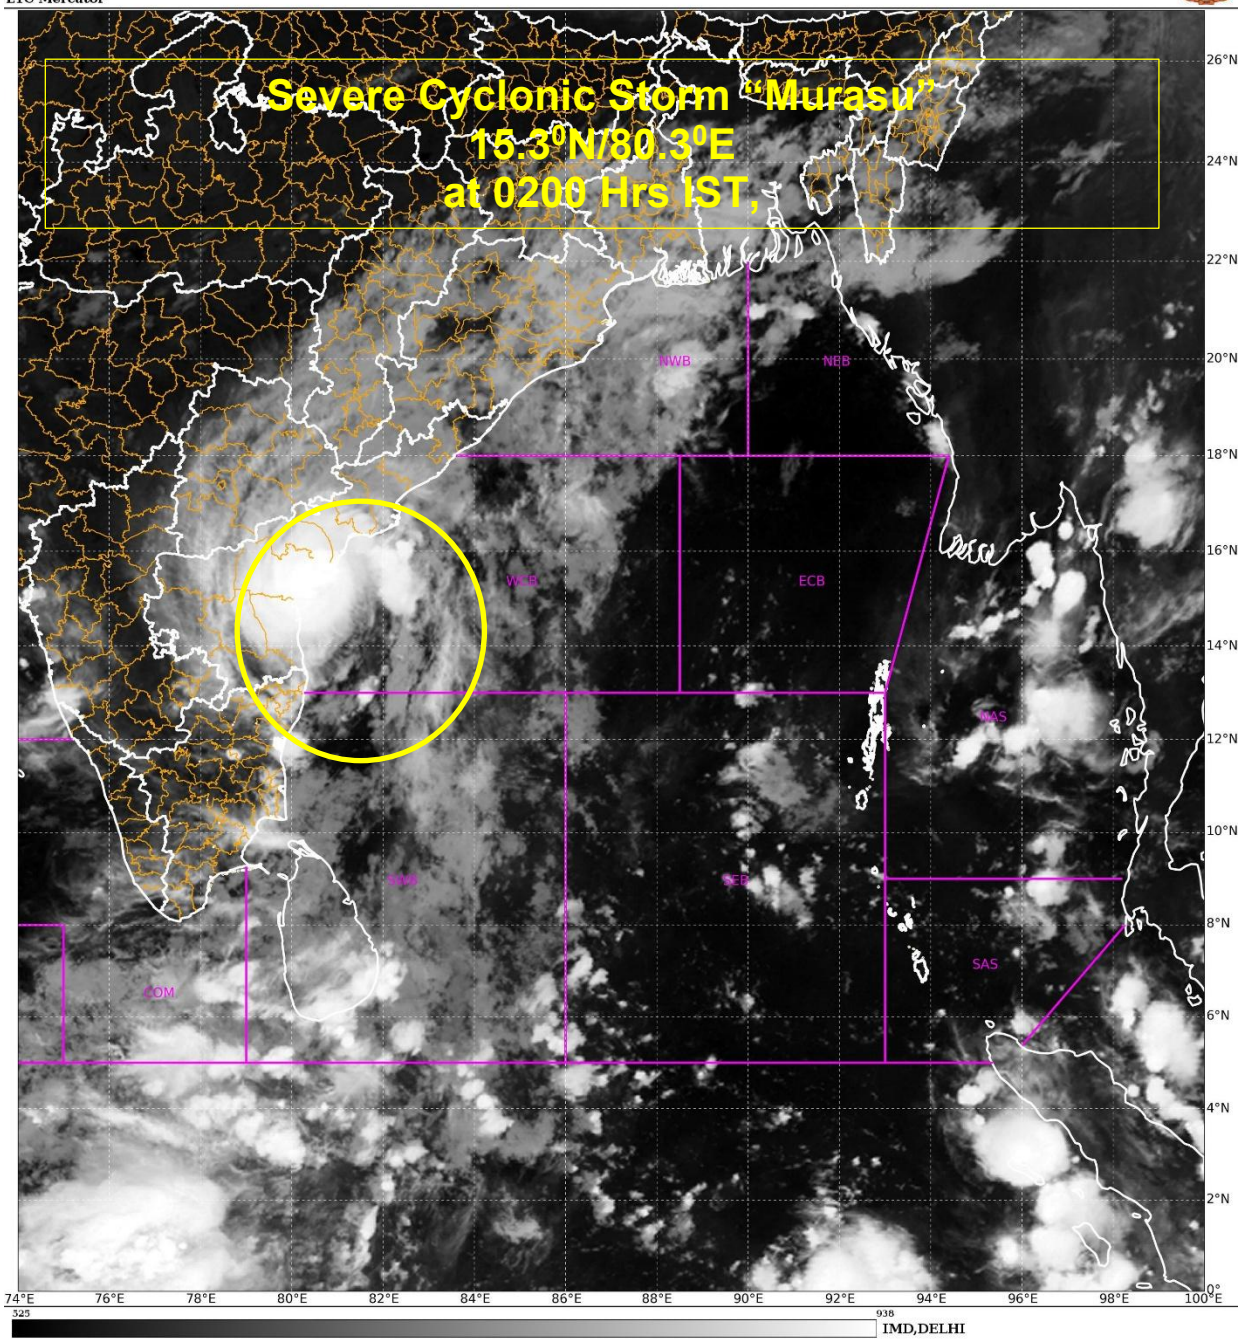

The next update will be issued at 0830 hrs IST of today, the 3rd November, 2026

FLASH FLOOD GUIDANCE

24 hours Outlook for the Flash Flood Risk (FFR) till 2330 IST of 03-11-2026 :

Moderate flash flood risk likely over few watersheds & neighbourhoods of following Met Sub-divisions during next 24 hours.

Coastal Andhra Pradesh & Yanam - Bapatla, Guntur, Krishna, Palnadu, Prakasam and Spsr Nellore districts.

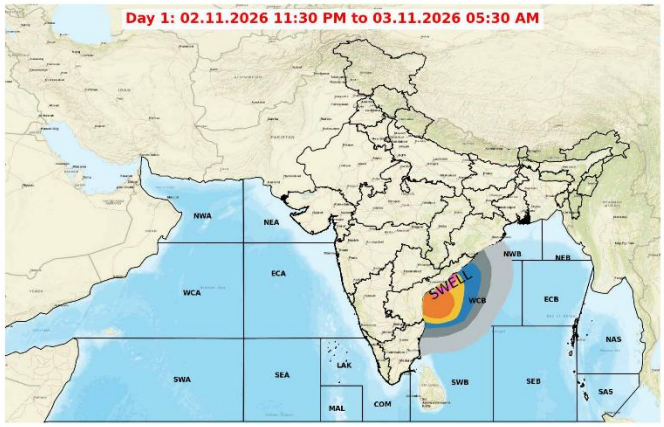

Surface runoff/ Inundation may occur at some fully saturated soils & low-lying areas over Area of Concern (AoC) as shown in map due to expected rainfall occurrence in next 24 hours.

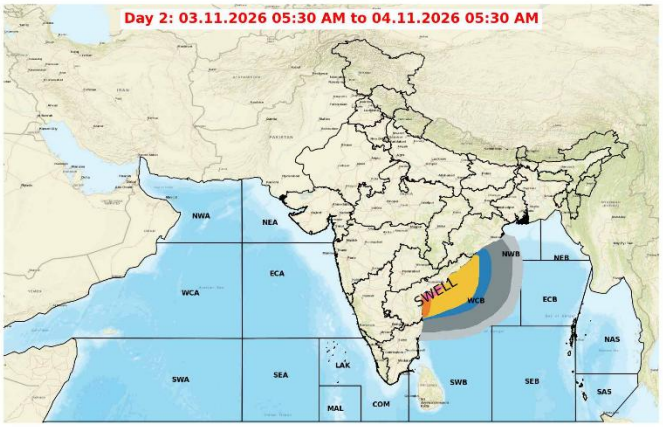

Flash Flood Risk
High Risk (Take Action)
Moderate Risk (Be Prepared)
Low Risk (Be Updated)
