शिलॉंग, मेघालय - ७९३००५ Shillong, Meghalaya – 793005

संभावित प्रभाव | PROBABLE IMPACTS:

- Widespread and severe water logging/ flooding in most parts of low lying area and also on river banks.
- Major disruption of traffic flow.
- Major roads/airport and travel routes severely affected.
- Long term disruption to municipal services (water, electricity, etc.)
- Possibility of danger to old and unmaintained structures, falling of trees etc.
- Possibility of inundation of low lying areas river banks
- Closure of roads crossing low water bridges
- Possible blockage and flooding of quarry and mining areas.
- Reduced visibility due to intense spell of rainfall
- Possibility of flash floods due to intense spell of rainfall.
- Possibility of damages to vulnerable structures/roads due to Very Heavy to Extremely heavy rainfall and Landslides.
- Heavy rainfall may damage standing crops and the crop in the maturity stage.
- Temporary disruption to the communication and power etc.

सुझाव | ACTION SUGGESTED:

- Traffic may be regulated effectively
- People in the affected area may restrict their movement
- Avoid low lying water logging areas
- Avoid travelling to landslide prone areas
- Avoid crossing rivers without safe bridges
- Avoid river banks and mud flow areas
- School and Colleges in low lying areas prone to flash floods may be affected.
- Mining areas and quarries are advised to cease operation during the intense rainfall period.
- Follow latest weather warning, SDMA and NDMA CAP.
